

## Soo News Editor, John Zabelka Dies

Sault Ste. Marie, Mich., May 18. (AP)—Newspaperman John G. Zabelka, regarded by some as the Soo country's "first citizen," died suddenly early today.

A heart attack at his home was the cause. He died at 2 a. m.

Managing editor of the Sault Ste. Marie Evening News since 1945, Zabelka was 47 years old. Up to his very last hours he had been a busy man—on a day that was typical of an energetic career which made him familiar to all Northern Michigan as a civic leader as well as editor.

Friends were shocked at word of his death.

At the News yesterday Zabelka had mentioned he was "not feeling well."

However, he had dismissed this and gone about writing three editorials and attending a Lions club meeting last night.

Thus his last day fitted the pattern of his life. Associates said he "never knew what hours meant."

At the time of his death Zabelka was president of the Sault Ste. Marie Chamber of Commerce, one of many civic posts he had filled in a quarter century at the Soo.

He is survived by his widow, Mrs. Alvern Zabelka, a son, Richard, 17, and his father, John, of St. Johns.

There are also three brothers, the Rev. George Zabelka of East Lansing, Victor of Chicago, and Joseph of Flint, and two sisters, Mrs. Joseph Seyrek and Mary, both of St. Johns.

## Boy, 7, Gets Head Stuck, Stops Train

Seattle, May 18. (AP)—Seven-year-old Jimmy Albright climbed up under a railroad trestle last night and stuck his head in a gap between two girders.

Here is what followed:

A Great Northern mail train was flagged to a stop down the tracks. A fire truck screamed to the scene. Traffic jammed on the highway below. Hydraulic jacks grunted and strained. An acetylene torch showered sparks.

And 90 minutes after he stuck his head in, Jimmy pulled it out. His ears were swollen. There were tears on his face. There was lard on his head. And in his heart was a solemn vow never to go under another bridge.

### Lard Doesn't Work

A playmate immediately ran to the Clifton Albright home when it became apparent Jimmy's head was stuck. Albright came running with a lard bucket. They greased the boy's head till it was slick as a peeled egg. No go.

## Truman May Have To Compromise On Labor Law Repeal

By JACK BELL

Washington, May 18. (AP)—President Truman's surrender on the Wallgren appointment started speculation today that he may soften his demand for outright repeal of the Taft-Hartley act.

Three things Mr. Truman has been standing for—steadfastly or stubbornly, according to the varying political descriptions: 1. He repeated again and again that he wanted Mon C. Wallgren, former Washington governor, to head the National Security Resources board.

2. He said over and over he wants all-the-way repeal of the Taft-Hartley Labor law.

3. He reiterated—but once or twice hedged slightly—that Congress ought to vote \$4,000,000,000 in new taxes.

Wallgren went overboard with the President's withdrawal yesterday of his bottled-up nomination. Taxes seemingly are going to have to wait until next year.

But the President has made it clear he wants a substitute for the Taft-Hartley act in this session of Congress.

Democratic leaders have told him he probably will have to compromise to get it—in other words, he can get part, but not all, of Taft-Hartley repealed.

The fact that the President could give up on Wallgren, one of his closest personal friends, convinced some lawmakers that Mr. Truman may not find it too difficult to compromise on the labor act.

It took Mr. Truman 99 days after he first submitted the Wallgren nomination to the Senate to decide that there was no profit in keeping it locked up in the cold storage vault of the Armed Services committee.

**HEADED FOR WASHINGTON**—Franklin D. Roosevelt Jr., 34, is shown casting his vote Tuesday in a New York election which won him a seat in congress from the state's 20th district, succeeding the late Sol Bloom. Roosevelt received more votes than all three of his opponents, handing a decisive defeat to Tammany Hall, which battled him in the campaign. Supporters hail him as the next governor of New York state.

## Roosevelt Elected To Congress, Beats Old Tammany Hall

By JOE HALL

New York, May 18. (AP)—Franklin D. Roosevelt, Jr., first of the late president's five children to seek elective office, has launched his political career by giving Tammany Hall a sound licking.

The 34-year-old lawyer, bearing one of the most potent political names in the nation's history, captured more votes than all three of his 20th congressional district special election.

Roosevelt collected 41,146 votes, 31, 637 on the Liberal party ticket and 10,109 under the Four Freedoms party banner.

His three opponents got 39,726 distributed this way: Municipal Court Justice Benjamin Shalleck, Democrat, 24,352; William H. McIntyre, Republican, 10,026; Dr. Annette E. Rubinstein, ALP, 5,348.

His jubilant supporters, toasting him at rallies throughout the district last night, chanted "Next stop, Albany—the governor's mansion" and "The next governor of New York." His father was governor two terms, vaulting from there to the White House.

One enthusiast demanded "When are you going to run for governor?"

The new congressman, third of the Roosevelt sons, responded: "I can answer that very simply. I have only one ambition and that is to serve the people of my district, and my country to the utmost of my ability."

The Tammany Hall candidate, Shalleck, given the Democratic nomination denied young Roosevelt, was his chief rival in the election.

FDR Jr. centered his campaign fire on the ancient Manhattan Democratic organization, just as his father had battled Tammany in his first political job as a state senator more than 35 years ago.

In turn, the Democratic organization denounced young Roosevelt as an interloper in the district.

### EXAMINER NOMINATED

Lansing, May 18. (AP)—Governor Williams today nominated Robert J. MacDonald of Flint as a member of the liquor board of hearing examiners. A former state senator and representative, MacDonald would succeed Fred C. Newman of Lansing.

## Hearings Wound Up On Atlantic Treaty

Washington, May 18. (AP)—The Senate foreign relations committee today winds up hearings on the North Atlantic Pact after 16 days of public testimony.

Only 11 persons remained to be heard among the 95 called to express their views on the 12-nation alliance. The American Legion headed the list of the witnesses due to close out the testimony opened on April 27.

Into the committee's record has gone a wide range of views—from Secretary of State Acheson's staunch support to the better opposition of the American Communist party.

From this testimony the committee will make a report in the next few days—possibly by early next week. It is expected to give unanimous approval to the treaty. Two-thirds of the Senate must approve before the United States can become a member of the alliance.

Chairman Connally (D-Texas) told reporters the treaty will not be called up for Senate action until the Reciprocal Trade Agreement bill is out of the way. Then, he said, Democratic leaders will decide whether the treaty will have priority over other legislation.

He also said there will be no hearings started on the \$1,130,000,000 arms-for-Europe program until the treaty is ratified. "There is no urgency for the arms program," he said.

## Senate Group Still Trying To Whittle Federal Expenses

By MARVIN L. ARROWSMITH

Washington, May 18. (AP)—Senators trying to whittle federal spending refused today to give up, despite another setback.

The latest reverse—a victory for administration budget plans—came late yesterday when the Senate wiped out its previous order calling for a five per cent cut in the operating costs of the labor department and the federal security agency. The reduction would have amounted to about \$11,000,000.

After killing that economy order, the Senate passed by voice vote and sent back to the House a bill carrying \$2,409,000,000 for the two agencies for the fiscal year starting July 1. That figure is \$135,000,000 more than the House voted.

It was the second regular appropriations bill passed by the Senate. Last week the economy group failed in an attempt to cut five per cent off the annual allotment for the treasury and post office departments.

Yesterday's defeat disappointed those out to trim spending, and it indicated an up-hill fight all the way in the future. But Senator Wherry (Nebr.), the Republican leader, said the battle is just getting started.

He told a reporter the Economy Bloc will bounce right back with a motion to cut the \$1,300,000,000 agriculture department bill by five per cent. The Senate opened debate on that measure yesterday and resumes today.

## Washington Honors President Of Brazil

Band and Birthday Cake To Feature Reception

Washington, May 18. (AP)—President Eurico Gaspar Dutra of Brazil arrives here today for a ten-day official visit.

And because this is his birthday, the welcoming ceremonies were to feature a cake four-feet high—to be presented by President Truman—and a rendition of "happy birthday" by the United States Marine band.

This unusual ceremony—probably the first of its kind in the history of Washington welcoming celebrations—was scheduled to take place on the steps of the District of Columbia building at the climax of a motorcade parade.

Dutra is 64 today. His birthday party was hastily arranged yesterday when the coincidence in dates was discovered.

The whole idea was to give the Brazilian chief of state a rousing welcome, to match the one President Truman received two years ago when he visited Brazil's capital city, Rio De Janeiro.

Dutra was due at Washington National Airport for a Brazilian army plane under American fighter escort at 3 p. m., EST.

Full military honors awaited him as he stepped from the plane, after which he and President Truman—along with members of Mr. Truman's cabinet and other high officials—were to travel through the city in a 30-car motorcade.

About 60 airforce planes were to fly over the four-mile-long, flag-decked route.

## Ferris Institute Now State College

Lansing, May 18. (AP)—A bill taking over Ferris Institute at Big Rapids as a state institution was signed into law yesterday by Governor Williams.

Under the law, the state agrees to continue the name and educational policies of the institute. It will be governed by an eight-member board appointed by the governor to take office July 1, 1950.

Other new laws signed by the governor include measures to: Increase jurors' fees from \$2 to \$5 a day.

Make it a felony to skip bond on a felony charge.

Name the route between Sault Ste. Marie and Ironwood "United Spanish American War Veterans' Memorial Highway."

Increase county treasurers' and constables' fees.

## Storms Take Lives Of 14 In 2 States

High Waters Cut Off Big Texas Cattle Town

Fort Worth, Tex., May 18. (AP)—Flood waters that inundated great sections of Fort Worth receded today, leaving behind the body of a seventh victim and a crippled drinking water supply.

The swirling flood that covered residential, business and industrial areas in the Trinity valley areas here injured 30 persons and left an estimated 13,000 homeless. The homeless spent last night in public shelters or with relatives and friends.

At dawn, weary searchers, working the flooded area in boats and afoot, found the body of a man identified by police as John B. Fawks near the animal cages in Forest park.

### Twisters Take Toll

The newest drowning increased the toll for three days of turbulent weather in Texas and Oklahoma to 14 dead and more than 118 injured.

The count was seven drowned and 30 treated at hospitals here, mostly for shock and exposure, five dead and 83 injured from a tornado at Amarillo Sunday night; one dead and nine injured from twisters in Oklahoma, and one dead and at least 12 injured in West Texas tornadoes.

### Tornado Hits Crowd

Nine of the injured in Oklahoma were watching a softball game at Meeker, Okla., last night when a tornado dipped into the crowd.

An elderly grandmother was killed by a twister that struck near Spur, Tex., last night and a farmer in Oklahoma was killed by a tornado that bounced into the Sooner state from Stratford, Tex.

As Fort Worth struggled back to normal it faced this situation: Areas west, north and east of the business district under water.

All schools closed and the north, east and west sections of town cut off from downtown for automobile travel and isolated from city bus transportation.

## Bride Of 15 Wants \$50,000 Damages For Stolen Spouse

Knoxville, Tenn., May 18. (AP)—A bride 15 years old has placed a \$50,000 price tag on the affections of her teen age husband she met while baby-sitting—and she wants her in-laws to foot the bill.

Mrs. Eugenia Holland Brendle filed a suit yesterday charging Dr. and Mrs. Luther A. Brendle with alienating her 16-year-old husband's love and affection.

She said her marriage in January to Luther, Jr., resulted from his courtship while she was baby-sitting with his nine-year-old sister and five-year-old brother.

After the marriage, the young bride said in her suit for \$50,000 damages, she and her young husband set up housekeeping and lived happily until Luther's parents stepped in and lured him back home.

## Game Law Revision Bill Passes House

New Schedule for Opening Deer Season Provided

Lansing, May 18. (AP)—A proposal that the state plant one million trout annually at a cost of \$500,000 instead of trying to improve lakes and streams was voiced in the House Tuesday.

It was proposed as one subject for study by a committee to consider problems of sport and commercial fishermen.

The committee was suggested in a resolution filed by Reps. Hugo A. Nelson (R-Indian River) and Guido Valenti (R-Iron Mountain).

At the same time, the House passed for the second time a game law revision bill which gives the conservation department discretionary power over deer in 12 counties.

Composed of three members from each chamber of the legislature, the committee would also look into the problem of the parasitic sea lamprey, pollution problems and the installation of fish ladders "to improve fishing in certain inland waters."

In the game law revision, passed once in the House and killed in a Senate committee, the conservation department would be permitted to make any regulations it deems necessary to cut down deer in Barry, Leelanau, Benzie, Charlevoix, Grand Traverse, Antrim, Mason, Van Buren, Manistee, Oceana, and Newago counties. It already has that power in Allegan county. Deer damage to crops has been heavy in those counties.

In addition, the deer season would open on the Saturday nearest Nov. 15 and the commission would be permitted to close the pheasant season by individual counties under the House version of the bill.

### SCHOOL FUND SWELLED

Detroit. (AP)—The state primary school fund has been swelled by \$2,000,000 in inheritance taxes from the estate of the late Henry Ford. Probate Judge James H. Sexton approved the payment Tuesday. He said the estate paid \$1,500,000 last June and estimated a similar amount remains to be paid.

## Communist Drive Nears Whangpoo

By FRED HAMPSON

Shanghai, May 18. (AP)—The Communists drove a spearhead through Shanghai's "back door" almost to the Whangpoo river today. In South China the Reds lunged to within 31 miles of the port of Foochow.

A Shanghai garrison communiqué acknowledged a Shanghai thrust but said it had been wiped out in fierce fighting.

The advance on Foochow, Fukien provincial capital almost midway between Shanghai and the provisional capital of Canton, was reported by the Nationalists' official central news agency.

The garrison communiqué said "Two regiments of Reds penetrated Tungkow" which is virtually on the east bank of the Whangpoo eight miles downriver from the center of Shanghai. They were surrounded and eliminated, it added.

Reds encircling Shanghai from the southwest drove to Chwangsha, 12 miles east of the city, then struck back westward against Pootung. This guerrilla-infested dock and warehouse area is just across the river from Shanghai's famed Bund.

The communiqué said the Pootung fighting flared at 5 p. m. yesterday and still was in violent progress. At one point, it said, the Reds forced Nationalist positions eight times before falling back before an artillery-supported counter-attack.

Central news said the Nationalists had reinforcements on the China Sea coast east of Shanghai, and these troops were trying to hit the attacking Reds from the rear.

Another Red force, the communiqué said, was moving toward Sanlung, about five miles from the big Lungwha international airport, but also across the Whangpoo. There was no report of renewed frontal assault on Lungwha. The Nationalists said they blunted such assaults yesterday.

## POWERS SCHOOL ISSUE DEFEATED

Millage Increase Wins; Bond Proposal Loses

Spalding township voters Tuesday approved a proposal to levy a 15 mill tax for school purposes for a period not to exceed 10 years, starting in 1952, but the voters rejected a companion proposal to bond the school district for \$114,000, plus interest, to complete construction of the new Powers-Spalding school.

The election result means that the plan to construct six additional rooms in the school now under construction will not materialize in advance of the 1949-50 school year. Supt. William Sharon indicated that students of the first four elementary grades will continue to use the old school building next fall. Students of other grades will be assigned to the new school.

In November, 1946 the school electors voted overwhelmingly to bond the district for \$87,000 to begin work on the new school. Utilizing other funds available in addition to the bond issue, a contract for \$142,000 was let for construction of a 10-room building. Although the original plan was to construct a 16-room school, advanced building costs precluded the financing of the entire 16-room project at that time.

The proposal voted upon Tuesday was designed to provide immediate funds to complete the school.

The vote on the millage issue was 316 yes, 304 no and the vote on the bond issue was 244 yes, 272 no.

The school district currently is paying a special assessment of 20 mills to finance the original construction and this levy will continue until 1952. The millage proposal voted upon Tuesday was to pay 15 mills special assessment for a period not to exceed 10 years, starting in 1952 when the present 20-mill levy expires.

A deficiency of \$19,000 in the present contract was provided for in the proposal voted upon Tuesday. It is anticipated that the millage extension will be levied to pay for the deficiency and to accumulate a building fund to complete the school at a later date. The 15 mill tax would bring \$193,600 in a period of 10 years, based upon present valuations, if the maximum were levied for the full 10 years.

The surprising results of the voting on the two issues Tuesday indicated that the township electors are willing to be taxed to pay for the completion of the school project, but that a majority disapproves of the proposal for immediate construction of the six additional rooms.

**SHANGHAI IN RED TRAP** — Communist forces have almost completely encircled Shanghai with the exception of the Whangpoo River which is the only escape route to the Yangtze River and the sea. A major Red drive (1) is pounding at the Woosung Forts defending Shanghai from the north. To the west, a Communist wedge (2) threatens to cut the highway between Lungwa airfield and the city. Meanwhile, Red troops are pushing up from the south (3), and spearhead (4) has wheeled around to encircle the city from the east. (NEA Telephoto)

## Theodore Belfry, 52, Life-Long Resident Of Munising Dies

Munising—Theodore N. Belfry, 52, of 119 Jewell street, died yesterday at his home after an illness of 18 months duration.

He was born in Munising September 27, 1896, and was a life-long resident of the community. He was employed by the Michigan Tanning and Extract Co. and worked as a butcher for several years before opening his own market in the Cowell building. In 1946 he purchased the Gredjoe property on Elm avenue and had been operating the Bear store there.

Surviving are his wife, Evelyn, two sons, Gerald and Theodore, Jr., of Munising, two daughters, Louise, of Detroit, and Ann Janell, of Detroit; two brothers, Alex of Munising and Wilmet of Detroit; three sisters, Mrs. Joseph Macey and Mrs. Horace Wilmore, Munising, and Mrs. Emil Matte, Detroit; and one grandchild.

Funeral services will be held Friday at 9 at a solemn requiem high mass at Sacred Heart church with Rev. Gerald Harrington officiating and burial will be in Maple Grove cemetery. Friends of the family may call at the funeral home beginning at 7:30 this evening. The rosary will be recited at 8 p. m. Thursday. Knights of Columbus and Munising city firemen will attend the services in a body.

## Chorus Girls Will Be Carved in Niche At Carroll's Grave

Los Angeles, Calif., (AP) — Even in death, showman Earl Carroll wanted to be surrounded by "the most beautiful girls in the world."

Carroll, who died in a Pennsylvania plane crash last June, planned an ornate base relief of chorus girls on a marble wall including a niche for his remains, a cemetery official said.

Testifying at the court contest over the showman's \$1,300,000 estate, Harold S. Morrison, secretary of the Forest Lawn Memorial Park Association, Inc., said:

The projected memorial will be designed by an artist of Carroll's choosing. A fund of \$50,000 was left for the memorial. Mrs. Patricia Carroll Peck, niece and closest living relative of Carroll, is suing to break the will, which left her only \$5,000. Most of the fortune was left to establish a non-profit cancer foundation.

Mrs. Peck, through Attorney Harrison Ryan, claims it violates California probate code to will a trust in perpetuity in any but a charitable institution.

The court took the briefs under submission.

An estimated 1,686,670 major crimes occurred in 1948, the F. B. I. reports.

ing city firemen will attend the services in a body.

## HERE'S WHY "Job-Rated" PICK-UPS CUT YOUR HAULING COSTS

- 1 Economical, L-head "Job-Rated" engine—with "Floating Power" mounts, and removable precision-type bearings—provides the right power, with economy!
- 2 Rugged front axles, with wider tread—give new safety, new ease of handling.
- 3 Riding is improved, spring life increased, by longer rear-shockled front springs.
- 4 An entirely new design of "cross-type" steering, in combination with shorter wheelbases, permits turning in narrow streets. Turning diameters are as small as 38 feet in the 1/2-ton model, both right and left.
- 5 Husky, silent 3- and 4-speed transmissions insure smooth operation and long life.
- 6 Side rails of high-strength steel, with 5 crossmembers in 108" and 116", and 6 in 126"-W.B. models, including channel-type bumper, produce exceptionally rigid frame.
- 7 Smooth riding and long life result from 52 x 1 1/4-inch rear springs, of Amola steel.
- 8 6 1/2-, 7 1/2- and 9-foot bodies, of 44.16, 56.08 and 67.28 cubic feet capacities, on 108", 116" and 126" wheelbases, provide far greater load space than other pick-ups.

Pick-Ups in 12 different "Job-Rated" models. G. V. W. capacities from 4,250 to 7,500 pounds (nominal ratings—1/2-, 3/4- and 1-ton). Dual rear wheels are available on the 1-ton models.

## Nationwide Resumes Daily Air Service; Non-Stop Run Starts

Beginning Friday, Nationwide Airlines, Inc., will resume its daily scheduled passenger and freight service between Escanaba and Detroit, it was announced this morning by John Weesner, Nationwide president.

As customary, Nationwide has been serving the U. P. on a thrice weekly basis during the winter, but beginning Friday and throughout the summer until further notice, its planes will arrive and depart northbound and southbound daily.

"Nationwide has flown over 4,000,000 passenger miles in Michigan in the last 25 months," Weesner said.

In addition to its regular passenger schedule, Nationwide will provide non-stop express flight service between Escanaba and Detroit.

This flight will leave Detroit at 6 p. m. each Friday and leave Escanaba at 6:30 p. m. each Sunday. This non-stop passenger service is expected to accommodate many weekend visitors from Lower Michigan to this resort area.

The new 3800-foot north-south landing strip at the Escanaba municipal airport will be oil blacktopped the latter part of this month and early in June, Fred Sensiba, manager, reports.

All preparations have been completed, he said, but it is necessary to wait until the gravel is thoroughly dry. Grading of both shoulders is almost complete.

Sensiba said the night lighting will be installed as soon as the 75-foot center strip of the north-south runway has been hard surfaced.

## Storms Take 13 Lives; Ft. Worth Has Bad Flood

(Continued from Page One)

Snarled traffic, blocked highways, power line breaks, a flooded water plant, a water supply that officials say will take three days to make normal.

**Bottled Drinks Boom**  
Water in this big cattle shipping center was an acute problem. Residents were warned not to drink it unless it had been boiled. Free typhoid shots were available to those who had drunk "questionable water."

They lined up with buckets, bottles and other containers for drinking water at commercial firms with private artesian wells. And sellers of bottled drinks reported a run on their beverages.

Two 500 gallon water purification units were sent here from the army's camp. Dallas, 300 miles to the east, sent eight 1,500 gallon water tank trucks to shuttle drinking water.

Dallas itself watched the biggest flood since 1908 swelling in its Trinity river lowlands. A crest of 48 feet is expected today, 20 feet above flood stage.

But the flood at Dallas thus far was confined between 60 foot levees. In the farm areas below the city, however, a 48 foot crest would spell ruin for hundreds of acres of farm crops.

**Refugees In Coliseum**  
Residents in communities south of Dallas were warned by police that water might back up and flood dozens of homes.

Fort Worth, which estimates its metropolitan population at more than 300,000, was one of the hardest hit by the storms.

Approximately 1,000 of the homeless were quartered in the city's Will Rogers Memorial coliseum. Others were living in schools, clubhouses, the city recreation building and the Carswell Air Force base gymnasium.

Police patrolled the flood areas to prevent looting.

The dead from the waters which spilled out of the clear fork and west fork of the Trinity river here yesterday to a depth of 18 feet in some spots were:

Dee Pennington, 66, city water works employee; Lucille Scott, Negro; Mrs. Jose Kent, 80; Rene St. John, 2; Donald Leroy Dewese, 16, and an unidentified white woman about 60.

Mrs. Charity Smith was killed by the tornado which hit near Spur. Her daughter-in-law and seven grandchildren and one woman were hurt.

About ten homes were smashed by the twister, one of a series in west Texas yesterday.

Others hit these towns or in their vicinity: Memphis, Southland, Rochester, Silverton, Daugherty and in Floyd county in the rich wheat and cotton belt of the south plains.

## House Approves Ban On Bootleg Cigaret

Washington, May 18 (AP)—A bill intended to halt what its backers call "cigarette bootlegging" into tobacco tax states landed in the senate today.

The house passed the measure yesterday after hearing estimates that mail order shipments of cigarettes from the tax free states cost states with cigarette taxes some \$40,000,000 a year in lost revenue.

Wohlen At Annual Forest Supervisor Meet In Milwaukee

Paul Wohlen, supervisor of the Upper Michigan National forest, is attending the annual meeting of U. S. Forest Service forest supervisors of the Milwaukee region in Milwaukee.

The 12 national forests in the region will be represented at the meeting. Supervisors will review the work of the past year and make plans for the succeeding year. The Forest Service's fiscal year is July 1 to July 1.

George Young, assistant supervisor of the Upper Michigan National forest, will attend a fire control training session conducted by the Milwaukee office in Eagle River, Wis., Monday through Friday next week.

A fire control equipment demonstration will highlight the meeting, which will include fighting a fire under simulated forest fire conditions. The effectiveness of a jeep as a fire fighting vehicle will be demonstrated and studied.

All forests in the region will be represented, and officers of all conservation departments in the Great Lakes states will attend.

## Georgia Veteran, 26, Flogged by 20 Men In Regalia of Klan

Lafayette, Ga., May 18 (AP)—A 26-year-old war veteran said he was flogged by 20 men in Ku Klux Klan regalia who accused him of drinking too much and not taking care of his family.

"I thought they were going to hang me," J. C. Stoker related in giving details of the Monday night beating.

He said the men held a noose around his neck while they lashed him. Several of the mob fired shots and shouted "hang him" and "shoot him," reported Stoker, a carpenter and the father of three small children.

Mrs. Stoker said her husband's undershirt was soaked with blood when he reeled back into the house after the assault.

The young veteran said his wife and children were left in tears when the men took him from his home.

"I have never and will never spend any money for whiskey when it takes food and clothing from my family," Stoker declared.

"The Klan has undertaken a big job if they want to beat up everybody that takes a drink."

Sheriff Weymon Harmon said he was investigating the incident. Twenty persons have been whipped recently by mobs in nearby Georgia and Tennessee counties.

## Escanaba Lumber Manufacturers To Attend Meeting

The Northern Hemlock and Hardwood Manufacturers association, composed of prominent lumber manufacturers in Wisconsin and Upper Michigan, will hold its spring quarterly meeting at Land o' Lakes, Wis., May 20th.

Mr. and Mrs. Stanley Venne, Juel Lee, James Andrews, and Hubert Shepeck are among those planning to attend. The Diamond Pole and Piling company, Birds' Eye Veneer, Shepeck Dimension and Lumber, Atlas Plywood company of Gladstone, Bay de Noquet company of Nahma, and C. S. Locke of Manistique are members of the association.

A large gathering is expected, to participate in discussions of business prospects and to hear Matt Niewenhouse describe northern hardwood lumber requirements of ECA. George Fuller, vice president of the National Lumber Manufacturers' association of Washington, D. C., will relate developments of industrial interest in the Congressional session.

Arvey Ahonen of Ironwood is president of the association, A. E. Swanke of Tigerton, Wis., vice president; and O. T. Swan of Oshkosh, secretary-manager.

**Dying Of Cancer, Newspaperman, 71, Plans His Funeral**

San Diego, Calif., May 18 (AP)—A veteran newspaperman today awaited death from cancer.

In his daily column yesterday he announced his illness to "bring a message of comfort to others who are hopelessly ill" and to appeal for contributions for cancer research.

Forrest Warren, 71, a contemporary of the late William Allen White and Ed Howe, started his column in the San Diego Daily Journal with these words:

"I have cancer and I am going to die of it—but I am not afraid."

"I am glad he (the doctor) told me," Warren wrote. "I think all cancer sufferers should be told. It is not pleasant news—but one wants to go—but it does give you a chance to get your house in order and that is important."

"I have called in all of my family and we had a long talk. And I've pretty well worked out the funeral arrangements. I've called on the men I want for pallbearers and they've accepted. And I've had a chat with my preacher, and asked him to keep his remarks brief."

Warren started his career at the age of ten as a printer's devil in his native Vermillion, Kans.

Carol Jean Dubord, daughter of Mr. and Mrs. John Dubord of 411 South Ninth street, who has been receiving medical treatment since May 9 in St. Francis hospital, is reported in good condition.

**Rival Police Chiefs Both Walking Beat At Litchfield, Ill.**

Litchfield, Ill., May 18 (AP)—Litchfield's two police chiefs walked on opposite sides of the street today—one with the keys to the squad car but without gasoline for it, the other carless but with a gas supply.

The two, Leroy Franklin and R. G. Stiefel, weren't even speaking to each other. Franklin was appointed chief of the five-man force by Mayor C. Willard Peterson. But the city council refused confirmation. So Stiefel says he remains chief until the council confirms a successor.

Stiefel has the keys to the jail and squad car. But the filling stations won't let him charge gasoline to the city account. Franklin can buy gas on credit—but has no keys.

The dispute is expected to go to court for decision. Meantime the two chiefs prowled opposite sides of the streets in this city of 7,000.

## Four Persons Hurt In Auto Accident

Four persons sustained minor injuries early this morning in an automobile accident in the 1500 block of Washington avenue.

A car driven by Joseph M. Berube, Wells, turning left on Washington avenue, was struck by a car driven by Alfred Beauvais, 419 So. Ninth street, travelling north on Washington. Both cars were extensively damaged.

Riding with Beauvais was his brother, Wilfred, and Dick Price, of Gladstone. All were taken to the hospital for examination. Berube sustained minor injuries to his hands and knees.

The accident occurred at 12:33 a. m. today.

## U.S. Forest Service Men To Inspect Tree Plantations In U.P.

Late plantings and tree plantations in the Upper Michigan National forest will be studied by U. S. Forest service officials of the Milwaukee regional office and Washington, D. C., office tomorrow and Friday.

They are G. Willard Jones, in charge of reforestation, Milwaukee region, and Charles Melichar, in charge of national forest planting, Washington, who will arrive in Escanaba tomorrow morning.

They will be accompanied on their tour by Ray W. Knudson, S. Forest service official assistant to Paul Wohlen, supervisor of the Upper Michigan forest.

The officials will visit the Moran and Raco districts in the Marquette National forest and other districts in the Hiawatha.

## Kill Nine Wolves In Ontonagon Area

Trappers of predatory animals in Ontonagon county killed nine wolves, 92 coyotes, and three bobcats during the month of April, exceeding by far the kill in any other Upper Peninsula county, it is reported by the conservation department.

Houghton county trappers took one wolf and 47 coyotes for second place, while Keweenaw county was third. Delta county trappers turned in seven coyotes and one bobcat for bounty in April.

### Still Time Left To Register

THE Escanaba school district's election registration lists were swelled by the addition of 642 names in last Saturday's special registration day campaign. That brings the total number of registered voters to 811.

A total of 811 school electors out of a potential of approximately 9,000 is not too satisfying, however. In fact, an election under these conditions is hardly any better than a Gallup poll—and everyone knows how reliable this opinion-sampling system proved to be last November.

There still are two more registration days before the school election June 13. They are Saturday, May 21, and the following Saturday, May 28. Registrations will be accepted both days at the junior high school.

It is expecting too much to hope that the number of persons who will register before the deadline will come within even half of the potential number of voters in the city, but a few hundred additions to the registration lists would certainly be an improvement.

It probably will take several years—and several school board contests—before the school district's registration list ever approaches the size of the city's general registration list. It is important that the list be kept up to date so that it will not again be necessary in the years ahead to void the registration list and to start all over again.

### Painters' Protest Deserves Rebuke

THE business representative of the AFL painters union in Independence, Missouri, has protested the hiring by President Truman of a non-union painter to paint the president's home. Commenting on the letter of protest, the business representative, Jack Cooke, said: "Truman has championed himself as the man of the hour in labor and you can't serve but one master—if you serve him right."

In the words of the union officer, labor regards itself as the president's master and that Mr. Truman's first responsibility, even his only responsibility, is to organized labor.

It is true, of course, that Mr. Truman has repeatedly acknowledged a debt to labor for the president's reelection last November. In fulfillment of that debt, the president has leaned over backwards, figuratively speaking, to espouse the labor viewpoint on matters of government.

Even Mr. Truman, we believe, will resent the inference of the painters' union official that the president's obligation is only to organized labor. The president of the United States is not a hireling of the labor bosses and the sooner organized labor recognizes that, the better it will be for unionism and for the country as a whole.

We trust that Mr. Truman will keep the non-union painter on the job until the summer White House in Independence has received its new coat of paint. That, we believe, is the only rejoinder Mr. Truman need make to the impertinent remark of the business agent of the AFL painters union in Independence.

### Free Speech Again Upheld By Court

THE supreme courts split decision, 5-4, Monday in the Terminiello case serves as a judicial anchor to constitutional guarantees of free speech. In effect, the court ruled that the right of free speech exists even when the utterances are inflammatory and stir anger.

Arthur Terminiello, a suspended Catholic priest of Birmingham, Ala., delivered an address in the Chicago Auditorium February 7, 1946. The meeting was called by Gerald L. K. Smith. In his address, Terminiello attacked the new deal, accused Mrs. Roosevelt of being a Communist, preached contempt for England and hatred of the Jews, according to the evidence presented to the court. An angry mob of persons was outside the auditorium, protesting Terminiello's appearance. A general riot resulted.

The important thing to remember about the constitutional right of free speech is that it cannot be preserved by denying that right to some people while protecting it for others. That is the basic principle recognized by the majority decision of the supreme court in this case. The court reasoned that if political jurisdictions were empowered to abrogate the rights of free speech on grounds that utterances tend to invite public dispute or bring about a condition of unrest, an extremely powerful weapon would be placed in the hands of political powers who may desire to silence the opposition.

The court's decision does not mean that a public speaker may say anything that comes to his mind about anyone, without fear of penalty. The laws of slander still prevail. This action, however, was not a suit of slander. Terminiello was arrested and fined on a charge of disturbing the

peace, under a broad interpretation of the Illinois disorderly conduct statute. The supreme court ruled that the statute may not be invoked to abridge the freedom of speech.

### Production Line Mining Foreseen

JOHN L. LEWIS has consistently supported mechanization of mines and high individual productivity. Now he has given notice that he expects a "dividend" for this support in the form of a shorter work day, higher welfare payments and a more even distribution of work for his miners.

A few days ago a coal operator said that he thought that if there was another rise in labor costs ahead, he and his colleagues would have to absorb it rather than pass it along to the customers.

Making allowance for the usual measure of guff, these statements indicate that both sides have accepted mechanization as being here to stay.

Mechanization will mean lower costs. At least it always has, and there is no reason why it shouldn't in mining. The coal operators are not philanthropists. And when one of them suggests that they might absorb another wage rise, it probably means that they can afford it.

The term mechanization, like such terms as mass production and assembly line, is usually associated with industries surrounded by four walls. The greatest development, of course, has been in factory production. But now more machines—and hence more economy, speed and efficiency—are becoming part of the mining picture.

This is neither accident nor haphazard evolution. It is a growing necessity, as Harold Von Thaden pointed out in a recent speech. Mr. Von Thaden is an executive of Hewitt-Robins, Inc., a firm that makes belt conveyors and accordingly knows something about moving minerals and the material that separates minerals from miners.

He said that our supply of high-grade iron ore, though still measured in decades, is low enough to require conservation through processing of low-grade ore. Three times as much of the latter ore is required to make the same amount of steel. So he estimated that we shall soon have to have 400,000,000 more tons of ore a year for our iron and steel requirements.

Mr. Von Thaden also said that growing requirements of coal for electric power and for the synthetic oil program that the Bureau of Mines recommends will call for 250,000,000 more tons of coal a year.

All industry depends on these two basic materials. And ultimately the speed of industrial production is geared to the speed with which they can be recovered and handled. It is possible, then, that we are at the beginning of a period when something like the continuous flow of the production line will have to be applied to mining.

### BIG-TIME OPERATORS?

(Iron Mountain News)

Reports of a \$25,000 jewel-theft, in broad daylight at Escanaba, and the expert cracking of two safes in this community indicate that big-time operators are heading out of the metropolitan areas and into the outlying districts to try their wares in heretofore unexplored territory.

The neatness and dispatch with which a Wisconsin jewel-salesman was relieved of his samples, at Escanaba, and the safes were cracked in Kingsford and Iron Mountain reveal a skill perhaps beyond the average of hometown talent. Police see signs of the same hand in both safe-crackings, with evidence, also, that both safes were first opened by "working" the combinations; that the safe-draws were then closed, re-locked, and the combinations finally knocked off with a heavy bar or hammer. Just why the thieves would have gone to the trouble of using the combinations which they later knocked off remains a secret of the trade.

Obviously, somebody with more know-how than is generally credited to an amateur has arrived here, either on a temporary job-basis or expressly to ply his criminal trade. City and state police are greatly concerned about it, for the apparent ease with which both safes were cracked, leaving no visible clues, may portend a wave of similar robberies, or attempts.

Perhaps the best approach, until some progress is made by the police, is to leave nothing of especial value in any place of business, when closing up for the night, if it is possible to transfer such valuables to a bank or other safe place. This may be rather difficult in the case of jewelry stores, where most of the stock in trade is composed of luxury items. Jewelry store proprietors would be wise, in any event, to be forewarned. In no case should any considerable sum of money be left, overnight, in any place of business throughout the community.

The foregoing may be a needless scare and warning, but the men who lifted the jewels at Escanaba, and jimmied the safes in Iron Mountain and Kingsford, are no amateurs, and an ounce of prevention may forestall a serious loss.

### LET'S TALK ABOUT THE NAME LEWIS

Readers from all around the country are writing to me about the name Lewis. They say that they sometimes hear it on the air as "LYOO-iss"—that is, with a long "u" (yoo) sound in the first syllable.

One reader states, "Whenever a broadcaster refers to John L. LYOO-iss, it strikes me as an insufferable affectation. Can that be the correct pronunciation?"

It is, if we are to believe the elderly dictionaries. But the truth is that "LYOO-iss" is an unnatural and labored pronunciation that acts as a decided stoplight of speech. I have never heard any person named Lewis use any pronunciation but LOO-iss. (Incidentally, my in-laws are Lewises.)

As for the name Louis, it too is some-

## Airlines Given Large Subsidies

BY MARQUIS CHILDS

Washington.—When Secretary of Agriculture Charles Brannan put out his plan to subsidize the farmer and at the same time allow the consumer to buy food at comparatively low prices, there were loud outcries. This was an evil scheme, so the critics said, to get government to underwrite permanently a large sector of the economy.

Childs

What the defenders of free enterprise often overlook is that important business interests are also subsidized by the government. If there is something inherently wicked in a government subsidy, then perhaps the time has come to look more closely at certain practices.

A conspicuous example is the airline industry. The government is now paying airlines, in air mail pay and subsidy, approximately \$100,000,000. The Civil Aeronautics board believes this must go up to \$125,000,000 in the next fiscal year.

Chairman O'Connell of the CAB said in a speech before the New York Bar association not long ago that of this total he could not tell "whether the subsidy element represents \$10, \$40, \$50 or \$60 million dollars." That is a pretty remarkable admission for a responsible official.

### U. S. UNDERWRITES PROFITS

The net operating losses of the airlines, both domestic and international, before mail pay in 1948 was \$91,636,000, which compares with \$76,748,000 in 1937. It is fairly clear, then, that the government is underwriting the profits of the airline in a period of high business prosperity, while the passenger is getting his airline ticket for a lot less than he would have to pay if it were not for government subsidy. Here in essence is the Brannan plan—subsidizing producer and consumer.

This subsidy may be vital. It may be essential to the development of a relatively new industry, although the "temporary period" when subsidies were theoretically necessary should now be at an end. National defense—the maintenance of a going air transport system—may be sufficient justification.

But, at the very least, the taxpayer has a right to an accounting that will show to what extent he is subsidizing this private industry. One of the recommendations of the Hoover commission was as follows:

"We recommend that the amounts of these subsidies should be paid to the post office by open appropriation from tax funds and not imposed upon the post office or the mail users in this hidden manner. By such a course, the president, the congress and the public may know what the amounts of the subsidies are."

### JOHNSON SEEKS REFORM

This is what Sen. Edwin C. Johnson of Colorado proposes to do in one of a series of bills now before the senate. In hearings before the senate interstate and foreign commerce committee, of which he is chairman, Johnson has indicated that he intends to push hard for passage of this long overdue reform.

Johnson has taken a strong line in spite of the fact that the CAB seems inclined to postpone any change by proposing that the bill be held up until CAB completes long drawn-out studies of the cost of carrying airmail. Similar bills have been introduced in the house by Rep. John F. Kennedy of Massachusetts, who is likewise urging the right of the taxpayer to know what he is getting for his money.

Johnson and Kennedy propose an allocation system that would fix the costs between passengers, cargo and mail. This would be a yardstick to apply to airline revenues.

If they were not sufficient to cover the cost of operation under these three headings, as they almost certainly would not be, then the CAB would determine the subsidy necessary for each line. Congress would then be asked to appropriate those specific amounts and the taxpayer would know exactly where things stood.

Johnson and Kennedy also propose to create an air merchant marine. In line with the recommendation of the president's air policy commission, their bill would set up the aircraft development corporation with government funds to develop and build freight planes for lease to private carriers. This directly touches national security, since most studies have shown the country woefully deficient in transport planes.

There is reason for concern over the drift toward ever increasing governmental intervention. It is possible to drift into statism, and a major cause of that drift today in the concentration of economic power in private monopoly or near-monopoly. Let's at least know what we are doing in this business of subsidies.

times heard on the air as "LLOO-iss," but it is entirely incorrect and without any dictionary sanction.

The "yoo" sound does not occur in the name Lucas either.

The long "u" (yoo) sound scarcely ever occurs after "l." Despite the elderly dictionaries, and some diction teachers, the "oo" sound is all but universal in the American pronunciation of such words as lewd, lubricate, lucid, ludicrous, luminary, luminous, lunatic, lure, absolute, allure, resolution, revolution, lute, lieutenant, etc. See the American College Dictionary by Random House.

Now this column is devoted to good speech and correct pronunciation. But it draws the line at priggish and affected tricks of elocution such as, "Lyoo-tenant Lyoo-cas Lyoo-iss, the lyoo-yoo-brious lyoo-a-tie, committed syoo-i-cide after listening to Syoo-per-man (Lieutenant Lucas Lewis, the lugubrious lunatic, committed suicide after listening to Superman)."

That such pronouncing fancywork is correct and cultured is pure moonshine and nothing more. It's as out of place in the American scene as the monocle, the silk topper, and the lorgnette.

## Well Worth Special Attention

## Good Evening

NEWSPAPER WOMAN—Yuma valley (Arizona) is covered "like the sunshine" by The Star, a weekly newspaper published at Somerton. The name of its editor, advertising and business manager is Miss H. Helen Harland and that name should awaken a response in the memories of local citizens.

Miss Harland is a former office employee of the Delta county road commission, is a graduate of Northern Michigan College of Education at Marquette, and taught school for six years at Perkins. Illness required sanatorium care at Pinecrest at Powers, and it was there that her flair for writing was discovered. She became editor of Pine Topics, the sanatorium bulletin. She held several positions in government and business offices after leaving Escanaba and was employed by the Yuma Daily Sun before becoming editor of The Star.

News in The Star has a distinctive regional flavor. Boy Scouts hike to the Mexican border for an overnight camp, a Sunday school class picks desert wildflowers at Telegraph Pass, young people dance at the Sweet Shop to western tunes and dressed in western costumes, and a fish fry is sponsored by second place winner in a local fishing contest. The fish was an 11 pound 5 ounce catfish.

THE ESCANABA —Roger Seguin, 17, son of Mr. and Mrs. Oscar Seguin of Gladstone Rt. 1, is in the U. S. Navy—and until the other day he was mystified about the name of a Coast Guard cutter.

From San Diego he sent a newspaper clipping that described the dispatch of the cutter Escanaba to assist some seamen who had been hurt in accident off the coast of California. Wasn't the cutter Escanaba sunk in the North Atlantic during the war? he asked his parents. His parents replied that the first Escanaba did sink following an explosion at sea, but a second Escanaba was built by the government and is now in service.

Roger entered the navy last July and will soon be 18 years old. He will come home on leave in June.

FIFTY YEARS AGO—The recent tazing of the old Frederick Carney home in Marinette has revived recollections of Carney the man. Who was he to build and live in a house with 16 rooms, including a third floor ballroom? To have an expanse of grounds that included a fish pond, a herd of 22 deer, and a fine stable with bob-tailed horses and a tally-ho?

Frederick Carney was one of the early-day lumber barons. One of his neices Mrs. Peter Gagner, the former Martha Carney, who now lives at Garth, has preserved a newspaper clipping that describes the death of her uncle May 13, 1899. His fortune at his death was estimated to be over a million dollars. Yet when he first began work in the woods on the Escanaba river in 1855 he received \$18 a month.

Through the years that followed his name was associated with that of other "big guns" of the lumbering era, including Daniel Wells, Isaac Stephenson, H. Witbeck and Nelson Ludington. In later years Fred Carney grew

Manistique.—The Manistique Woman's club voted 54 to 10 at a meeting yesterday to donate \$2,000 to Shaw hospital for construction and equipping of a maternity ward in the hospital.

Escanaba—Sisters Mary Salesia, Apollina, Conrada and Constance of St. Francis hospital, who took their vows to the order together 25 years ago in Echt, Holland, are observing their anniversary today with a high mass with special music in the hospital chapel, and an anniversary dinner, which will be attended by a number of Franciscan Sisters from Upper Michigan.

Gladstone—Atty. G. Raymond Empson, prominent Upper Michigan attorney, was elected governor of the Tenth District Rotary at the district convention held in Wausau. Attorney Empson is also a delegate to the Rotary International which will be held in Texas this summer.

Manistique—John N. Schuster left today for Milwaukee where he will preside at the annual meeting of the Wisconsin Kennel Club. Schuster, who is president of the club, has seven beagles in the show for the meeting.

Escanaba—Mrs. Felix Salvail has left for an extended visit in St. Alme, Quebec, Canada, with her daughter and other relatives.

stout, yet he seemed in apparent good health for his face was flushed and rosy. Had his friends but known, these were the symptoms of the stroke that resulted in his death.

He was stricken while on a trout fishing trip to the upper reaches of the Escanaba and became partly unconscious. The Indian guide found a horse-drawn conveyance to take Carney to Swanzy station and from there he was transported by rail south through Escanaba to Marinette. He died as the train reached Menominee. To this day his name is perpetuated in the town of Carney in northern Menominee county.

COMING SOON — Richard Morenus of Escanaba, writer of radio dramas heard on some of our national networks, will be represented in the July Sports Afield with a piece on his experiences in the bush country of Canada. Author Morenus has presented some of this material to local audiences in speeches before service clubs and other organizations. Busy in radio and with his typewriter following six years in Canada, Morenus is now at work on a radio advertising text book for Ohio State University.

CHOIR ARRANGEMENT—Escanaba's Orpheus Choral club last night presented the choral arrangement of Jean Sibilus famous composition "Finlandia." Perhaps it is not as well known that the choral arrangement is by Prof. Martti Nisonen, director of music at Suomi College, Houghton.

The vocal arrangement of the Sibilus tone poem, composed for orchestra more than 30 years ago, has received the praise of Sibilus himself, who wrote Nisonen: "I thank you heartily for your great kindness to dedicate to me your beautiful choral arrangement. It is skillfully done and mightily sounding."

Among those who undoubtedly heard the Orpheus presentation of Nisonen's arrangement was his son, Bert Nisonen of Gladstone, employed in the Unemployment Compensation Commission office in Escanaba.

A Happy Taxpayer

So They Say

A great many people, if they find that the President is going to be in church will go to church. Well, that is not the right frame of mind in which to go to church, and I don't cater to that sort of program. I go because I want to go and because I think I ought to go, and not for the purpose of making a show—President Truman.

I have a notion, maybe it's a woman's hunch, that were there half a dozen outstanding American women—women versed in world affairs—to sit down with a similar group of women from France, England, and yes, even Russia, to discuss the means of attaining world peace, that they could get somewhere—Sen. Margaret Chase Smith (R) of Maine.

## The Washington Merry-Go-Round

BY DREW PEARSON

Washington.—Firmly and without fanfare France has told the United States it will not withdraw its occupation troops from Germany—regardless of what is decided at the big four meeting on Germany.

The French ambassador, popular Henri Bonnet, told this to Secretary of State Acheson on Thursday on orders from his government. Bonnet, who just returned from consultation in Paris, stated flatly that France does not feel the Germans can be trusted yet, therefore cannot take the chance of pulling out of its occupation forces.

The French attitude has upset Acheson's plans somewhat for he was considering the evacuation of all four powers in return for quick elections in eastern and western Germany. Acheson has cabled the American embassy in Paris to try to induce French Foreign Minister Schuman to change his mind before the foreign ministers meet May 23.

Webb assured the vice president he would still be welcome at the age of 105—provided he rooted for the Yankees. Barkley is now in his 72nd year.

FAST-TALKING HUMPHREY  
Economic-preaching Representative Robert Rich of Pennsylvania ran into a statistical buzz-saw when he tangled with freshman Senator Hubert Humphrey the other day on federal aid to education. During a hearing by the joint committee on inter-governmental relations, Rich was complaining about federal grants to states.

"Take this aid-to-education bill," he said. "Where will it end? We will spend \$300,000,000 the first year, \$500,000,000 the second year and the next thing you know it will cost the taxpayers a billion dollars."

"That's exactly what I hope," shot back Humphrey, "and the government couldn't make a better investment. Studies by the U. S. Chamber of Commerce have shown that spending for education always yields a high return in economic prosperity."

"For every dollar federal, state and local governments spend to improve school facilities there is an average \$6 return in productive earnings. The National Education association reports that an illiterate man between the ages of 35 and 44 averages only \$486 income a year."

"Elementary-school graduates in the same age group earn \$1,228, high-school graduates, \$1,764, while college graduates between 35 and 44 average \$2,465 a year. It's a proven fact that areas where the greatest illiteracy prevails also are the most backward economically. Do you want me to go on?"

But Rich had had enough. Though quite a fast talker himself the gentleman from Pennsylvania was too happy to pass on to another subject.

TAFT'S LABOR ACT CHANGES  
While combing through Senator Taft's minority report, Senator Thomas of Utah, scholarly chairman of the senate labor committee, scribbled down some notes that throw a light on the coming labor battle in the senate.

Thomas found that Taft had actually recommended 28 changes in his own Taft-Hartley law, but only 20 changes in the old Wagner act. This comes surprisingly close to Thomas's own bill, which is backed by President Truman.

The Utahian picked out the main differences and jotted them down on a scratch pad. It is around these issues that the debate will hinge on the senate floor.

Here are Senator Thomas's notes: "Secondary boycott—Thomas prohibits one type, Taft prohibits all but 'struck work'."

"Jurisdictional strikes—No substantial difference. "National emergencies—Taft adds injunction and plant seizure and mandatory report to congress. "Five-man board—Taft makes seven and non-partisan. "State law, closed shop—Thomas makes federal law supreme, Taft makes state law supreme."

NO CANCER IN OHIO?  
Senator Bricker of Ohio, Republican, is leading the fight to cut down on cancer research. He's even against building up the cancer laboratories at Ohio State university, and quotes Dr. Charles Doan, Ohio's medical dean, as saying there is no need.

The real truth, however, is that Senator Bricker has been misquoting Dr. Doan. While the senator has been arguing that Ohio State doesn't need more facilities, actually the university has applied for \$1,500,000 to construct new cancer-research facilities. This, incidentally, is the largest application on file.

MERRY-GO-ROUND  
Oregon's Senator Wayne Morse was literally knocked off his high horse the other day. Though an expert horseman, he was toppled when an unruly colt crashed into a fence and pinned the senator's leg. No bones were broken, but Morse still has a bad limp. . . Back from the hospital, Majority Leader Scott Lucas has put an end to rumors he might resign as floor leader. He is in the pink and rarin' to talk on any path. . . Chairman Tom Connally of path. . . After Chairman Tom Connally of the senate foreign relations committee accused Senators Watkins of Utah and Donnell of Missouri of taking two-thirds of the time at the North Atlantic pact hearings.

## GRAND MARAIS

**Woman's Club**  
Grand Marais, Mich. — The Grand Marais Woman's club held a regular meeting at the Community church Thursday evening.

Plans were discussed for the graduation dance which the club sponsors each year. The dance will be May 27 immediately following the exercises.

A delicious lunch was served by the hostesses, Mrs. John Morrissey, Mrs. Russell Mulligan and Mrs. Rex Block.

**Receive Athletic Equipment**

The third, fourth, fifth, sixth, seventh and eighth grade boys met Thursday afternoon and drew numbers to decide who should receive the various used athletic equipment from the school athletic lockers. Superintendent Walter Hampton was in charge of the drawing. All equipment was worn or otherwise outmoded but made the boys very happy and will furnish them and their friends with entertainment for some time to come.

Among the equipment given the boys were basketballs, baseballs, softballs and boxing gloves.

**Birthday Party**

Bobby Hampton, son of Mr. and Mrs. Walter Hampton celebrated his tenth birthday with a party at his home after school Thursday afternoon.

His guests included, Everett Bugg, Carl Knuteson, Pat Wood, Harvey Rogers, Albert Grasser, Henry Pettipren, Peter Campbell, Jackie Senecal, Sammy Lambert and Bernard Bugg.

The boys enjoyed a treasure hunt around the block.

The table was decorated with colored napkins and plates and centered by a big birthday cake. The guests enjoyed a delicious lunch.

Bobby received several nice gifts.

**Birthday Party**

Vicky Jean Buckland, daughter of Mr. and Mrs. Victor Buckland celebrated her seventh birthday with a party at her home Saturday afternoon.

Her guests included, Helen Picel, Carol Sayen, Dianne Yilmaki, Dianne Pell, Linda Erickson, Suzanne and Rosemary Herbert, Judy Roberts, and Donna Mae Carpenter.

They played outdoor games and drop the handkerchief, and spin the bottle indoors.

Vicky Jean received numerous lovely gifts.

A delicious lunch including the traditional cake was served by the hostess.

**Home Extension Group I**

Members of Home Extension Group I met at the home of Miss Isabella McCall Saturday evening.

Members present were, Mrs. Mina Mole, Mrs. Ray Barney, Mrs. James Buckland, Mrs. W. E. Hill, Miss Hilda Peterson, Mrs. Milton Touzel and the hostess.

Plans were discussed for achievement day at Germfask May 25.

**Personals**

Mr. and Mrs. Donald MacDonald and son of Seney have moved into the Ira Lee home in Grand Marais. Mr. MacDonald is fishing with his brother Lyle.

Theodore Roberts, Donna Roberts and Willo Davis spent Friday in Munising where they visited Mrs. Theodore Roberts and infant daughter, Dixie Lynne, at the Brasier hospital.

Mr. and Mrs. Albert Grosse of Sault Ste. Marie spent the weekend at the home of Mr. George Nettleton.

James MacDonald and Miss Eunice Bailey of Newberry visited several days at the home of Mrs. Emma MacDonald.

Mr. and Mrs. Douglas Mulligan and daughter and Mrs. Elfreda Mulligan were callers in Escanaba Saturday. The girls enjoyed the carnival the best of all.

Mr. and Mrs. Robert Thompson and family left Friday for Toledo, Ohio where they will spend a few days.

Miss Willo Davis left Saturday aboard the 400 and City of Portland for Portland, Oregon, where she will visit at the home of Mr. and Mrs. Isadore Roberts. Mr. and Mrs. Theodore Senecal and Jackie accompanied her to Escanaba and spent the day there shopping.

**Fort Brady Lease**

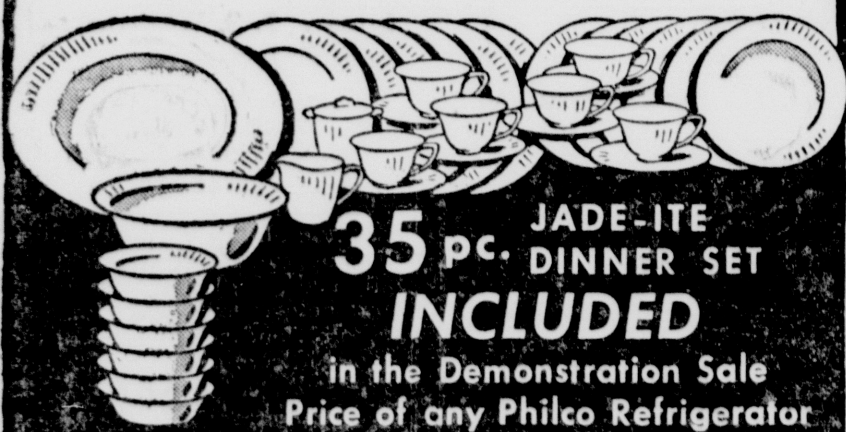

**Extension Asked**

Lansing, Mich. (AP)—The state administrative board formally asked the Army Tuesday to extend its lease on the Sault Ste. Marie mental hospital at Fort Brady.

Army approval of the request already has been indicated.

Governor Williams said the lease extension had been endorsed by all interested state agencies and by the Sault Ste. Marie city commission.

ENJOY FREE AND EASY PARKING AT THE STORE WITH THE MAGIC DOOR!

**TO THE MARKETS**—Rodger Quist, oldest employee of the Krause company, gets a load of hardwood and pine lumber ready for truck shipment in the U. P. Krause, whose son Jack runs the retail store in Bark River, expects to manufacture at least a half million feet of lumber this year. The lumber will be sold in Upper Michigan. Some is now going to Hermansville for repair of the Catholic church. Krause, who is 60, says there is a lot of smaller timber avail-

able in Upper Michigan. "Distance doesn't mean so much anymore; an operator can cover greater areas both in getting logs and in selling his lumber," Krause said. He says the market is good and that even green lumber is bought as fast as he can make it. Krause, whose father and grandfather were big timber operators in northern Wisconsin, employs eight men in the mill. They are Tony and Joe Matto, Percy Steffel, John Steffel, Lawrence Bell and Jack Hein.

**GETTING A LOAD** — Workmen at the recently opened Krause electric sawmill at Bark River here are loading some white pine, hemlock and hardwood on a peck car, which will bring the logs to the mill. A large cable operated by an electric motor pulls the car of logs down the track and up into the mill. Ernest Krause, who has been in lumbering operations in Upper Michigan since 1920, owns and operates the mill. The mill, which cost about \$5,000 to set up, is in its fifth week of operations. One power switch controls the Marble Card motors which operate the carriage, saws, edger and planer, and trimmer.

#### Fish Hatchery for U. P. Approved Over Department Protest

Washington, D. C., (WSN)—It was over the objection of the Fish and Wildlife Service of the Department of the Interior that Eleventh District Rep. Charles E. Potter obtained favorable action by the Marine and Fisheries Committee of the House on his bill providing for establishment of a fish hatchery and rearing pond in the Upper Peninsula of Michigan, he said.

Rep. Potter had three other bills of this nature under consideration

but because of the objection of the Fish and Wildlife Service he had to compromise on the one station in the Upper Peninsula.

A resolution providing that the Fish and Wildlife Service expend funds which are necessary to conduct research and to determine what means can be effectively used to control the sea lamprey menace was also reported by the committee.

"This is just the beginning of a long-range program I intend to push that will restore the commercial fishing industry as a major economic resource again," Rep. Potter said.

## SCHOOL BOARDS VISIT ESCANABA

### City School Facilities Given Inspection

School board members representing Fairbanks, Wells and Cornell townships, together with members of the Escanaba board of education and county and city school officials, enjoyed a dinner meeting last night followed by an inspection of Escanaba high school and Catherine Bonifas Technical school.

Purpose of the meeting was to better acquaint township school boards with educational facilities in the Escanaba high schools. Two hundred and forty-eight children from the townships attend high school in Escanaba.

Harold Crebo, president of the Escanaba board of education, welcomed the township board members and pointed out to them the special educational facilities offered in the city schools.

"For example, we have 20 children from the townships who are physically and mentally handicapped and who are in our special rooms," Crebo said. "We have 52 boys from the townships in the Catherine Bonifas Technical school who are taking the special courses. There are 194 boys taking work there, so 27 per cent are from the townships."

In addition, training is being given 49 township boys and girls in the Escanaba city school cooperative and veterans training programs. Plans are being made for Smith-Hughes agricultural program, and another agricultural teacher for the veterans training program is expected here in June, according to John A. Lemmer, Escanaba superintendent of schools.

Dinner was served by the students of the home economics department in the Junior high school under the direction of Miss Marion Shane and Miss Phyllis Lindberg. The dinner was served by girl students from the townships. A style revue, in which the stud-

## New York Cop With Ph. D. Ponders Big Oil Mystery

By NEA Service  
Bartlesville, Okla., (NEA)—Detective William Fox of the 34th Precinct, New York City Police Department, is here to help solve a mystery.

He expects to work for one year on the case. But, at the end, he will take no prisoner back. Instead, he hopes to turn over to the U. S. Department of Interior's Bureau of Mines the solution of a problem that is of tremendous importance to the nation in its production of crude oil.

Detective William Fox is also Dr. William Fox, the only Doctor of Philosophy among New York's 18,000 police. He earned the Ph.D. degree in Surface Chemistry from Columbia University in 1944.

Now, at the request of the Bureau of Mines, Detective (or Dr.) Fox has been granted a year's leave of absence to conduct research which, it is hoped, will result in production of from 25 to 50 per cent more of the crude oil now in the earth.

A science teacher in a New Haven, Conn., high school first stirred Fox's interest in chemistry. After his family moved to New York, he entered City College. To help pay expenses through City College he worked nights in a bakery.

Science continued to be his chief interest. At 21, he was graduated from City College with a Bachelor of Science degree, in 1935. Then he went to work as a chemist and began graduate work in chemistry at Columbia.

There he came to the attention of Prof. Arthur W. Thomas, head of the chemistry department. Thomas saw in him a potential scientist of importance. At his suggestion, Fox set his sights on a master's degree in chemistry.

But expenses had to be paid. In 1939, Bill Fox earned a place in the spectacular swimming cast of Billy Rose's Aquacade at the New York World's Fair.

After the fair closed, he taught applied science in two New York City high schools. Then, in 1940, Fox joined the police force as a patrolman.

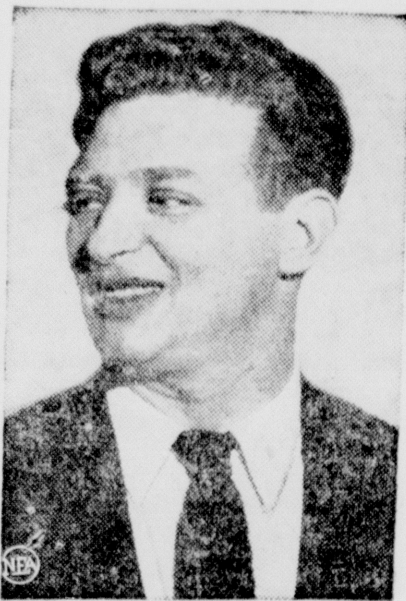

He covered a beat from midnight to 8 a. m. During the day he went to Columbia for his graduate courses in chemistry. In 1942, he received his A. M. degree and, in 1944, his Ph.D.

He was promoted to detective in 1945 and assigned to the police chemical research laboratory. Later, because he wanted a more rounded experience in police work, he was transferred to the 34th Precinct in New York's busy Washington Heights.

He continued his close association with Prof. Thomas at Columbia, and with his studies in surface chemistry which have made him one of the authorities in that field. His doctoral dissertation was entitled: "Equilibrium Relationships Between Fluid Interfaces; the System of Methylene Iodide-Water-Air." He has taken an occasional day off to deliver reports before scientific societies in various eastern cities.

He came here at the request of the Petroleum Experiment Station. They are trying to learn more about the forces operative in petroleum reservoirs that prevent from 25 to 50 per cent of the crude oil in the earth from being produced, even by the most modern engineering methods. Along with other chemists, Fox hopes to come up with the solution.

But he's still one of New York's finest, and he expects to be back. "Because," he explains, "the work of being a policeman today is a great job, too. Today's policeman recognizes the social implications of his work and the fact that he has a social responsibility to the community. He is there to

William Fox: "I'm something of a curiosity on the force."

help and to protect, not just to punish.

"He studies people and he learn a great deal about them. It is true, perhaps, that I'm something of a curiosity on the force, with my Ph.D. in chemistry. But I believe that every policeman of five years' experience has learned enough about people, their habits, their thinking, the working of their minds, to qualify for a Ph.D. in psychology."

The word "solon" derives from an ancient poet, philosopher and general, who as head of the city of Athens remodeled the government.

A serious crime occurred every 18.7 seconds in 1948, the F. B. I. reports.

**GOOD NEIGHBORS** — Last February, Ralph Peterson, 50-year-old farmer living on County Road 521 one-half mile from Hyde, suffered a fractured back when a tree fell upon him. He was recently released from St. Francis hospital but must wear a cast for some months yet. Realizing he will be unable to work for some time, his Ford River neighbors decided to help him. Last Saturday, they organized a fertilizer spreading bee. Fifteen men, with five

tractor-drawn spreaders, covered eight acres, which will be planted in potatoes. Participating in the bee were: Henry Posenke, Steve Bryak, Ernest Kline, Albert, Edward and John Fenelon, Gerhart Bittner, Clarence, Ronald and Roger Dittich, John Bryak, Glen, Roy and Leslie Billy and Lawrence Fenelon. In the above picture, Mr. Peterson is standing on the tractor at the extreme right, watching the men at work.

### May Crowning

Schaffer, Mich.—The May procession and the crowning of the statue of Our Blessed Mother took place in the Sacred Heart church on Sunday, May 15 following the 10:30 high mass.

Hymns were sung during the procession led by the altar boys followed by the younger school girls all attired in white and pale colors, and the older girls dressed in formals which formed the court of honor. Patsy Desjardin had the honor of placing the crown on the head of the Blessed Virgin. She was attended by Mary Richer who carried the crown on a satin pillow. Train bearers were Rodger Mayrand and Ivy Lee Hurtubise. An act of consecration was recited by Rev. Father Pelletier followed by the Benediction of the most Blessed Sacrament.

**K. of C. Communion Sunday**  
The Knights of Columbus and Holy Name men from Schaffer and surrounding areas will receive Holy Communion in a body on Sunday, May 22. Following the 8:30 mass will be a communion breakfast in the church dining rooms served by the young ladies of the parish.

## This "corkscrew" makes pole-planting easy

Along a highway in Michigan, a Michigan Bell line construction crew is setting a string of new telephone poles.

"All right, Tommy," shouts Mike, "back 'er up!"

Tommy, in the cab of a heavy truck, shifts the gears into reverse. With uncanny skill he backs the truck off the highway and up to a stake driven into the ground by a telephone engineer.

"Okay! Hold it!" calls Mike.

Mike throws the control levers and a huge corkscrew-like hole digger, mounted on the rear of the truck, begins to grind its way toward the earth directly over the marked spot.

It touches the surface of the ground and bites in. Down. Down. Down it goes, cutting a clean, deep hole just slightly larger than the telephone pole that is to be set there.

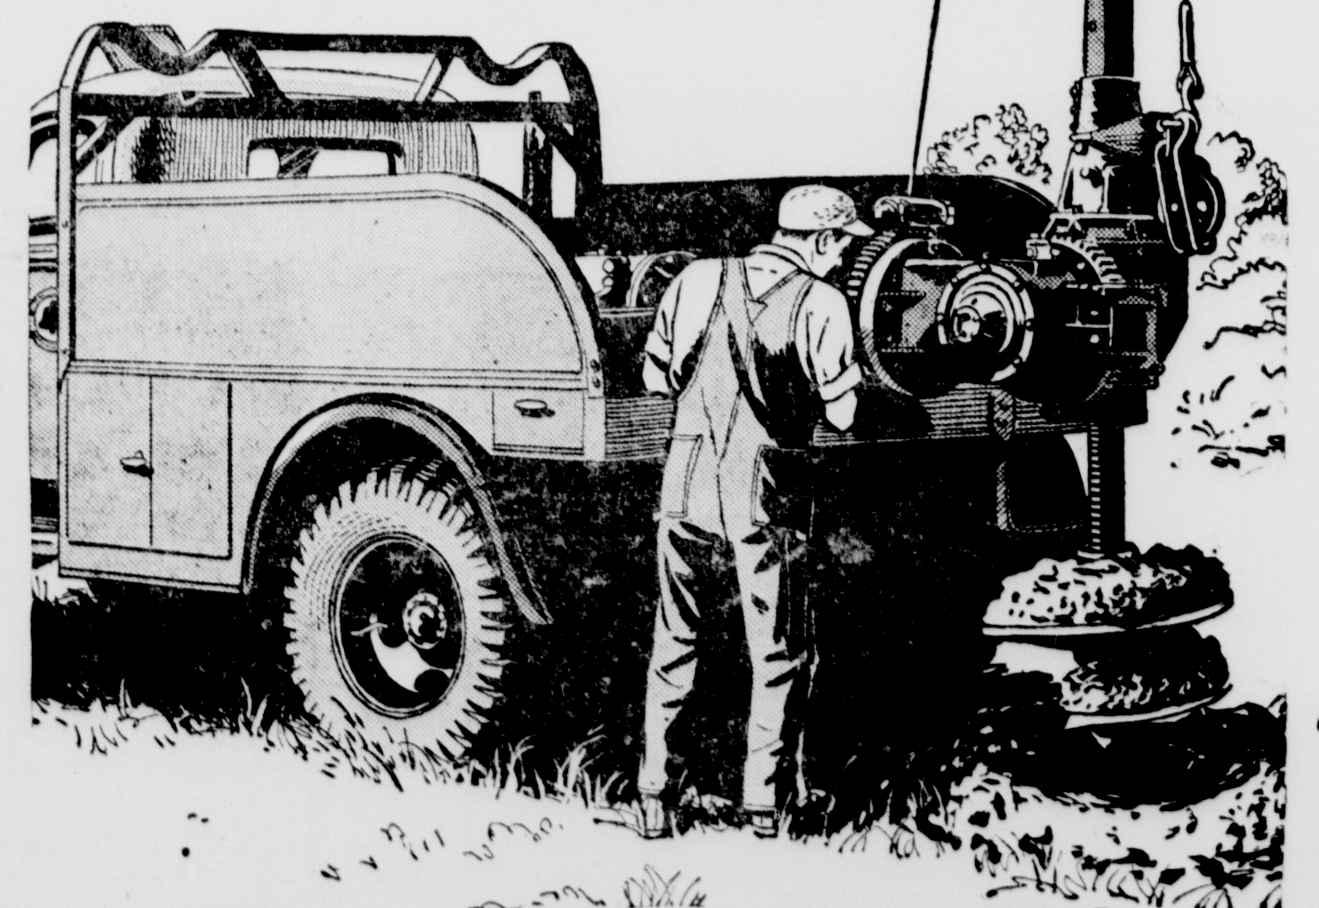

The digger bites easily into the earth and in a few minutes reaches the desired depth.

In another few minutes the pole is hoisted by a derrick mounted on the truck and is lowered into the hole. Earth is tamped in around it and the pole is "set."

Time was when every telephone pole had to be set by hand. With bar and shovel, it took as much as two hours to dig the hole alone. Today, the efficient pole-hole digging truck is used wherever soil conditions permit—to do the job quickly and economically.

This is another way in which Michigan Bell is using the most modern, time-saving equipment to bring you good telephone service at low cost.

## Choral Singers Delight Large Audience; Accordionists Score

The Escanaba Orpheus Choral club delighted a large audience last night with its annual concert. The club opened the evening of music with the traditional "Music when Soft Voices Die" by Ross Stokess, a former Escanaban. R. Paul Bowers directed.

Following their opening number, in which they revealed themselves a capable group, the choral singers sang "Holy Art Thou" from Handel's Xerxes, George Bizet's Agnus Dei and Dett's "Listen to the Lambs," with soprano solos by Misses Jessie Wick. Her pleasing, unassuming soprano voice was appreciated by the audience.

A highlight of the concert was the choral rendition of the late Martti Nisonen's (Hancock) choral translation and arrangement of Sibelius' Finlandia. With Mrs. M. H. Garrard at the piano, the composition was presented in stirring musical form, to the thorough appreciation of the listeners. Much of the inspiring beauty and strength of "Finlandia" has been recaptured in the choral arrangement.

## Accordion Players

Good interpretation of musical works and complete unison between the conductor and the well-trained singers marked the concert as another triumph for the choral club.

A 20-piece accordion band under direction of Manley Anderson,

Escanaba accordionist and music teacher, was heard in Miner's Grenadier's march, and "Song of India," Janet Dixner and Steve Borko combined accordion keys to present Deiro's "Beautiful Days." Miss Dixner also played Lecuona's "Malaguena," accordion solo. The audience was captivated with the accordion music and heartily applauded the players, especially Miss Dixner following the Malaguena solo.

Mr. Anderson played Deiro's Tranquillo, a symphonic overture, and was recalled for an encore performance, Sparking. His mastery of the accordion was known to the audience beforehand, and he again scored as an able interpreter of classical music on the instrument.

## Popular Group

The second portion of the Orpheus program consisted of Spross' "Let All My Life Be Music," several waltzes from Dreams of Spring "Fledermaus" by Johann Strauss, "Will You Remember" from Romberg's "Maytime," "Begin the Beguine" by Cole Porter, "Home on the Range," and "Michigan My Michigan." All were presented in good form, with the last number on the program a beautiful rendition of the new state song.

The audience applauded heavily at the close of the concert, recalling the club for encores. They sang the familiar rondo, "Three Blind Mice."

## Mother Who Beat Her Baby to Death Loses Fourth Child

Los Angeles, Calif. (AP)—Another tragedy has struck the 21-year-old mother who agreed to sterilization to escape prison in the fatal beating of one of her children.

Mrs. Georgette Brucks' fourth child died Monday. The six-pound boy was born with a spinal defect.

Mrs. Brucks pleaded guilty to manslaughter in the fatal beating of her seven-month-old son, Howard, last October. A judge accepted her suggestion that she be sterilized at the time her fourth child was born in March.

Her second child, Donald, now two, was offered for adoption as a condition of the probation. Her oldest child, four, is with the father, Edmond Brucks, Wickliffe, O.

Mrs. Brucks told the court the father of her last two children was Donald Redman, 23, now in jail on a robbery charge.

**LOOKING FOR A HOME?** — The world's largest private housing development — 5000 homes — is rapidly nearing completion at Puerto Nuevo, on the outskirts of San Juan, Puerto Rico. Started little more than a year ago, 3500 dwellings have already been completed by L.

D. Long, Charleston, S. C., builder. Each concrete house has five rooms and bath and sells, on the average, at \$4,000. This is the first of several low-cost projects designed to relieve the housing shortage in overcrowded Puerto Rico.

**NEXT TIME HE'LL KNOW** — This 3-year-old boy runs through the missing persons record at a Chicago police station after reporting his name was Billy and that his mother was missing. As it turned out, Billy was missing. And when his mother, Mrs. William Foley, claimed him 5½ hours later, she took time out to teach him — again — to say, "My name is Billy Foley."

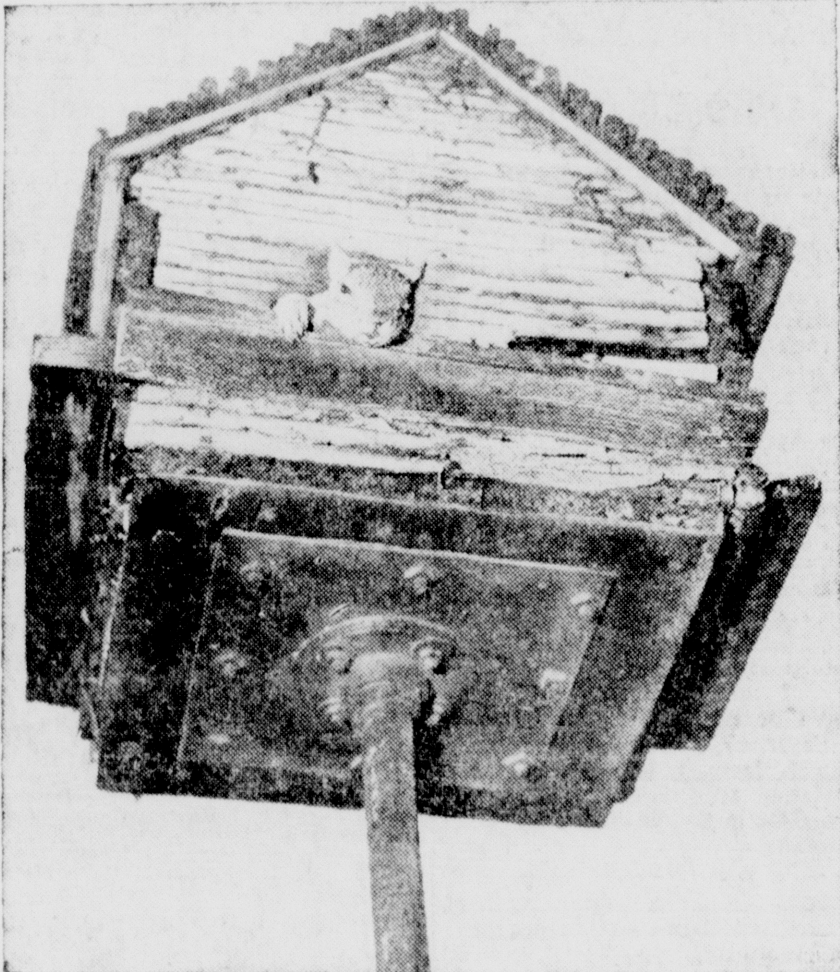

**BABY SHETLAND WEIGHS IN . . . DOG PASSES 'LOYALTY TEST'** — Fran Hollis hugs a 12-pound Shetland pony, left, born at the Barnes Bros. Circus in Chicago. The colt is believed to be the smallest on record. At right, Jack McDonald, of Fort Lauderdale, Fla., receives his commercial art diploma from Robert

Ingman, right, board chairman at Miami's Terry Art Institute, while his dog Colonel, gets a loyalty diploma. The 3-year-old mongrel never missed a class during the two years McDonald attended the institute. Even when his master was sick, Colonel got to his classes.

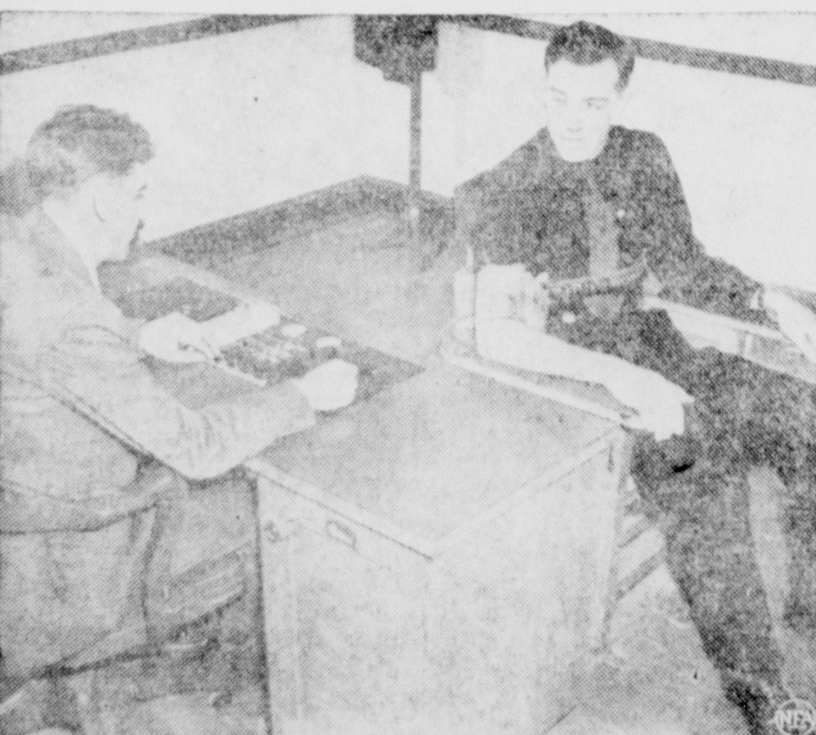

**IN THE FAMILY** — Prince Philip, the Duke of Edinburgh, congratulates his wife, Britain's Princess Elizabeth, after conferring on her the honorary degree of doctor of music at the University of Wales at Bangor. It was Philip's first duty following his installation as chancellor of the university.

**'NUTS TO YOU' IN SQUIRREL TALK** — This little fellow isn't being overly squirrely. His parents beat the housing shortage last winter by moving into this bird house atop the garage of Mrs. James Hess, of Cleveland, O. Since then, this one and two other baby squirrels were born, and things are going along nicely, thank you.

**LIFE AFTER DEATH** — Mrs. Francis M. Page, Pasadena, Calif., looks fondly at her four-year-old son, Lawrence, and marvels at the miracle of science which brought him back to life after he had stopped breathing for 10 minutes. A traffic victim, Lawrence was pronounced dead soon after his arrival at the hospital. Doctors injected coramine, a stimulant, into his heart. Artificial respiration was then applied until the child resumed breathing. Doctors report the tot is still in a critical condition. (NEA Telephoto)

**THE NEW, BIG ECONOMY SIZE** — Chicago's Crime Laboratory wanted a new lie detector, but learned that a factory-made machine would cost the city \$1295. Policemen Joe, left, and John Price, economy-minded brothers, thought they could do better than that. With an O.K. from the commissioner, they built the detector above, using some old parts and some new ones. Cost: \$100.

#### RULES

- The Contest is open to everybody, men, women and children. Contest opens with the legal fishing season and closes on September 15. Envelopes containing entries must bear a postmark not later than September 15, 1949, to be eligible.
- All fish entered in the contest must be caught in public waters of Upper Michigan during the open season in the respective fish class.
- Contest is limited to fish taken with hook and line. Any legal lure may be used. Lake trout must be caught on a rod or line freely held in the hand and not attached to a boat.
- All information asked for on the entry blank should be supplied. Failure to give length and girth may disqualify entries. Fish must be weighed on tested scales and measured with a steel tape measure. The length taken from the end of the lower jaw with the mouth closed to the tip of the tail, and the greatest girth of the fish taken. Weight may be given dressed or in the round or both.
- In the walleye pike and black bass classes a photograph is desirable to be sure of identity of the species.
- In the event of two or more fish weighing and measuring exactly the same, identical trophies will be awarded. Greatest measurements will decide the winner when weights are approximately equal.
- Accompany your entry with a photograph of yourself or the fish or both together with a brief story of how, where and when the fish was caught. A photograph is not essential to win an award but it is desirable.
- The entry blank printed above, or an exact copy must be used. It must be signed by the person catching the fish and by two witnesses who examined the fish and verified its weight and measurements. The contestant agrees, if requested to do so by the judges, to furnish an affidavit attesting to the truth of all statements made in the entry.
- Contestants may make as many entries in all classes as they wish.

#### PRIZE AWARDS

In each of the classes the angler entering the fish which is adjudged to be the largest in its class will receive a trophy in recognition of his or her accomplishment.

Additional blanks may be had free of charge by addressing Outdoors Editor, Escanaba Daily Press, Escanaba, Michigan.

## No Private Movies For Princess Beth

London, (AP)—If Princess Elizabeth wants to see a movie she'll have to go to a theatre just like anyone else.

The labor government says no licenses are being issued for home use of the materials needed for the private movie theatre the Princess had planned for her new home.

Otherwise redecoration of the residence—Clarence House—in London's west end is coming along fine. The princess and her husband, the Duke of Edinburgh, can move in with Baby Prince Charles at the end of the month.

William J. Gillingham, 89, resident of Manistique since he was a young man in his early twenties, died late Monday night at the home of his daughter, Mrs. Ellen Powers, 903 Saginaw street. He had been ill several months.

Mr. Gillingham was born in Niagara county, New York, on August 28, 1860 and came to Manistique in his youth. He was married in Manistique in 1891 to Miss Nettie Fernea. He was a regular attendant of the First Baptist church. He was also a member of the local Odd Fellows lodge and active for years in that organization, having held all of the offices of that lodge at one time or another and at the time of his death was the oldest Odd Fellow in the city. He was also a member of the Rebekah lodge. During his active years he followed the carpenter trade.

Surviving him are three children, two sons, George, of Brimingham, Mich., and Edward, of Louisville, Ky.; and a daughter, Mrs. Ellen Powers, Manistique; seven grandchildren and five great grandchildren. Mrs. Gillingham died forty-one years ago.

Funeral services will be held Thursday afternoon at 2:30 o'clock at the Mortson Funeral Home, with the Rev. William Schobert officiating. Burial will be in Lakeview cemetery.

The 45-mile-square glacial area of Mount Rainer, Washington, is greater than that of any other peak in the United States and includes 28 ice streams.

The young couple will reside in Detroit where the bridegroom is employed. (Bradley Photo)

NEW POLICEMAN  
IS ON THE JOB

Paul Hanson Added To  
City Staff

Chief of Police Roy Anderson has added another member to his staff on the city police force, in compliance with an order issued by the Manistique city council at its last regular meeting.

The new officer is Paul Hansen, of 530 Washington avenue, who began his new duties Tuesday morning and who will serve in the capacity of probationer for the next six months. For the time being he will be at the desk at the police station where he will familiarize himself with his fundamental duties as an officer.

Officer Hansen is the son of Harry Hansen, who was for many years in charge of the local coast guard station. He is an ex-service man having served in the navy during World War II, is married and the father of a young son.

The city council, in authorizing an increase in the city police staff, took into consideration the fact that the policing of parking meters would take up most of the time of one officer and another would be needed to supplement his work. The council also assured Chief Anderson that they would back him fully in his demands that police service in the city be improved.

LaFollette's Ladies  
Bowling Team Dines  
And Elects Officers

The annual banquet, climaxing the bowling season for LaFollette's Ladies' Bowling League, was held Monday evening at Blaney Park.

The following officers were elected after the dinner: Ann Pariente, president; Ruth LaFollette, vice president; Josephine Busch, secretary; Pat Kasun, treasurer; Ellen Stephens, Sgt.-at-arms.

Awards for the season and tournament were presented. Mrs. Helen Moon presented gifts to the out-going officers.

For a first course, tomato juice and stuffed celery sticks are usually very welcome. Season the tomato juice with salt, freshly ground pepper, and a little celery salt. Use cream cheese to fill the celery and flavor it various ways: mix it with anchovy paste, or with minced canned pimento, or with chopped chives, or with finely chopped salted peanuts. Be sure to dry the celery stalks thoroughly before adding the filling; then cut each stalk in one or two inch sticks.

The amount of water your garden hose will deliver is useful information to know when planning a water system or when water supplies are short. The U. S. Department of Agriculture gives these figures: A one-half-inch hose with a nozzle will deliver 200 gallons of water an hour; a three-quarter-inch hose with nozzle will deliver 275-300 gallons per hour, and a lawn sprinkler head will deliver 120 gallons per hour.

MEN BOWLERS  
HAVE BANQUET

Fine Program Marks End  
Of Season Finale

Approximately 160 men attending the annual men's bowling banquet held Saturday evening at the Midway Recreation.

The election saw Leonard "Gump" Olson elevated to the presidency to succeed Roy Van Mill. Kenneth Johnson is first vice president, Ray Wahowiak second vice president, Vernon Long 3rd vice president and Dr. B. S. Skelenger 4th vice president.

Walter VandeWeghe, veteran bowling secretary, was renamed as secretary treasurer.

The board of directors remains unchanged. On it are Gene VerHamme, Frank Sirola, Torval Kallerson, and Walter Johnson.

"Van" who is completing his 25th year as secretary was presented with a gift commemorating the event.

During the after dinner program there were talks by Alphonix Bernard, Escanaba, president of the U. P. Bowling association, and Carl J. Sawyer, Escanaba, director of the American Bowling Congress.

Roy Van Mill opened the meeting and turned it over to Gump Olson as toastmaster. There was a financial report by Treasurer VandeWeghe and he also awarded city tournament prizes. Al Gillis, who with his sons operate the alleys, also spoke telling of plans for the coming season.

Two bowling films, "Ten Pin Titans" and "Bowling Fever" were shown by Joe Barak.

There was entertainment by the King-Marshall duo from Terrace Gardens.

## ESCANABA DAILY PRESS SPORTS "It Seems To Me"

BY JIM WARD

Add Dick Greenwood, of Menominee, to your list of hurdlers who will challenge Marquette's Paul Gustafson and Soo's Keith Ewing among others for honors in the U. P. finals here Saturday, May 28. . . They are practically shoe-ins in district meets this Saturday, so you'll be seeing them. . . Greenwood won a 16.3, only two-tenths over George Shomin's U. P. Class B record set in 1942, in winning the 120 high in the Eskymo-Maroon dual meet in Menominee Saturday.

Dave Johnson, of Escanaba, pushed Jack Anderson, of Menominee, to the fine time of 55.2 in the 440-yard dash at Menominee. . . Dave passed him at the halfway mark but lost out in the stretch. . . Bill Pontow beat his Menominee teammate, Bill Wells, by a yard in copping the century in 10.2, which is two tenths of a second better than the existing U. P. Class B record. . . The century undoubtedly will be one of the highlights of the U. P. finals here May 28.

One of the best races of the day in Menominee was the Maroons victory by a pace in the medley relay. . . Dick Lemery of Menominee took a five-yard lead over Con Luckee, of Escanaba. . . Dave Johnson, Esky, picked it up and added five over Menominee's John Arnott. . . Don LaCourt closed the gap on Howie Perron by two yards. . . Don Stewart, Menominee, barely edged Wayne Sundquist, the Eskymo anchor man. . . They ran neck and neck until the last 15 yards when Stewart pushed a pace ahead and held it to the tape.

I say there, old boy, this idea should spread to golf clubs in the Escanaba area. . . Lloyd's of London has just announced that a golfer may now insure himself against making a hole in one. . . That is to say he pays 12 shillings sixpence (that's \$2.50) a year to Lloyd's. . . If he makes an ace, Lloyd's will pay him 10 pounds (\$40) to cover the traditional round of celebration drinks at the clubhouse. . . Bully idea, wot?

Add the experience last night of Flip Cochrane and Cliff Beaudin, Jr., to the trials and tribulations of running a softball team. . . They drove in Beaudin's "Leviathan" all the way to Negaunee to pick up Mickey Kuchenberg for the scheduled Liberty Loan softball game here last night. . . Mickey is working in Negaunee. . . They got him, drove him back to Escanaba and got here in time to catch the rainfall that postponed all games last night. . . So Kuchenberg went back to Negaunee on the "400".

The fact that Kuchenberg is the fellow who smacked the triple and scored the winning run against the Paper Mill last Sunday had something to do with the management's anxiety to have him in the lineup. . . George Grenholm, city recreation director, is recovering at home from the effects of a tetanus shot taken after he got a nail in his foot while working around his house the other day.

I got busy with the pencil after Carl Sawyer brought us the U. P. bowling tournament prize list and discovered that Escanaba bowlers brought home an \$875.16 swag from Menominee. . . That's a nice split of the 39th annual melon. . . Of course, Herr Schneller and Monsieur Gravelle are responsible for a good bit of the swag. . . Together, they won \$323.

Eddy earned \$170.50. . . Greg pocketed \$152.50. . . Eddy's check was bigger because of the disparity in all-events. . . Each won \$80 in the team event, \$85 in doubles, Greg won \$50 and Ed \$38 in singles and Ed \$50 and Greg \$20 in all-events. . . In the booster division the Escanaba Nite Owls, Electricians and Engineers won \$60, \$50 and \$45, respectively, for third, fourth and fifth.

### Saints Split But Fatten Lead in AA

By the Associated Press

St. Paul split a doubleheader with Toledo Tuesday night but still was able to fatten its American Association lead by a half game. . . The Columbus tripled Milwaukee. . . Performing before a crowd of 5,006—one of the largest in recent years in Toledo—the Saints hacked out a 12-3 victory with Toledo taking the nightcap 6-5. It was the Hens first win over the Saints in five tries. The loss was St. Paul's sixth in 25 starts.

The second-place Brewers lost to Columbus 8-2. . . Minneapolis moved into a dead-lock with Indianapolis for third place by trouncing the Tribe 11-8. Louisville bounded out of the cellar with a twin killing of Kansas City, 3-1 and 5-0.

### DiMag Returning to Practice Next Week

New York, May 18 (AP)—Joe DiMaggio will don his familiar "No. 5" New York Yankee uniform next week and try out the ailing heel that has kept him on the sidelines since the season's start.

The test probably will determine the immediate baseball future of the fence-punching outfielder, whose \$90,000-a-year salary makes him the most expensive bench-warmer in the business.

In the meantime, the Yankees have no intention of putting him on any sort of formal shelf until there is definite proof he won't be able to produce.

"DiMaggio is going to be on my team until he can't play any more," Manager Casey Stengel said.

London—Chile defeated Egypt, 3-2, to complete the quarter-final bracket in the European Zone Davis Cup eliminations.

FLINT ARROWS GAIN By the Associated Press

The Flint Arrows gained a game on Dayton's league leading Indians as the Central league race tightened up a little from top to bottom Tuesday night. Bob Henderson's seven-hit pitching carried Flint to a 7-3 victory over the Charleston Senators while Dayton was bowing to tail-end Grand Rapids 5-2.

SEVEN BADGER LOSSES Madison, Wis., May 18 (AP)—Michigan State handed Wisconsin its seventh straight baseball defeat 10-5 here yesterday to sweep a two-game series. The visitors slammed out 17 hits off Badger hurlers Thornton Kipper and Johnny Tennant. Catcher Frank Bagdon of the Spartans got five singles.

## City Oldtimers' Softball League Openers Friday

The defending champion Escanaba Daily Press team will open the 1949 Escanaba oldtimers' softball league season by tangling with Flat Rock at 7 Friday evening at Memorial Field. St. Joe Boosters and Eagles are slated to clash at 8:45 in the Memorial nightcap.

Eight teams will battle for the 1949 championship, beginning play this Friday and continuing through August 19. Four games will be played each Friday night.

The two other openers this Friday will find the Birds Eye opposing P&C at Royce park at 6:45 and City Employees meeting Northern Motors at Webster park at 6:45.

The Grey Beards were on the original league roster but dropped from the league and were replaced by the Northern Motors nine.

As is customary in baseball and softball throughout this area, the winning team manager will be responsible for bringing or telephoning the result of each game to the Sports Editor of the Escanaba Daily Press.

## Final Formal Vote To Make The Big 9 Big 10 Once Again

Evanston, Ill., May 18 (AP)—The Big Nine is scheduled to become the Big Ten once more when the conference acts finally on Michigan State College's membership bid this weekend.

Formal admittance of the East Lansing, Mich., institution is the ranking item of business at the league's annual spring meeting. The session will be held in connection with the conference outdoor track meet Friday and Saturday.

The confab of faculty representatives, athletic directors and coaches will open tomorrow, but action on the Michigan State entry is not expected until Friday.

Unless there is an unexpected hitch, the faculty representatives will approve formally a report by a special three-member investigating committee which explored Michigan State athletic policies last April.

Since the conference football schedule is drawn up through 1952 and the 1949-50 basketball card already has been drafted, Michigan State presumably will make its league debut in minor winter sports and indoor track next year.

The conference already has stipulated that football games played by Michigan State with other members from 1949 through 1952 will not count in the league standings.

The conference, long known as the Big Ten, has fenced with membership bids principally by Michigan State and Pittsburgh since the University of Chicago, a charter member, dropped out in May, 1946.

## Perkins Would Like To Book 6:30 Games

Perkins, May 18—The Perkins nine of the Bay de Noc Baseball league is seeking to book early evening games with teams of neighboring communities on a home-and-home basis. Games would start at 6:30.

Managers of teams interested in this proposition are asked to contact Jimmy Gibbs, of Perkins, or Joe Richards, of Brampton. Perkins players would particularly like to arrange such games with Trenary, Rock, Gladstone, Cornell, Bark River, Ford River or other nearby teams.

## Lipon's Single Scores Winning Run For Tiges

Washington, May 18 (AP)—Walt Masterson had a two-hit shutout with two-thirds of the eighth gone for the Senators last night when his wildness allowed the Detroit Tigers to tie the score and go on to a 4-2 victory.

With two away in the eighth Masterson walked Don Kolloway and George Kell. Vic Wertz and Pat Mullin, in the starting lineup for the first time this season, then singled to tie the score at 2-all.

Forrest Thompson, called in to replace Masterson, retired the visitors but opened the ninth with walks to Johnny Groth, Eddie Lake and Connie Berry before he was jerked for Dick Welteroth.

Johnny Lipon, back in the lineup after a six-day layoff, greeted Welteroth with a single to center that scored Groth and Lake and wrapped up the game for the Tigers.

Rookie Marvin Grissom, who worked only the eighth, received credit for his first win. Thompson was charged with the loss.

Washington got its first run off Virgil Trucks in the fourth. Eddie Robinson singled and was forced by Ed Yost. Sam Dente then singled putting Yost on third.

Al Evans then singled to score Yost. Masterson went out bunting foul and Gilbert Coffa popped.

The other run off Trucks came in the sixth on singles by Yost and Dente and Evans' infield grounder.

Diz Trout worked the ninth for the Tigers and stopped the Nats on one hit.

A total of 23,834 paid customers saw the Tigers take the opener of the three-game series. Another are light contest is slated tonight.

Ted Gray will be out for his fourth straight victory without defeat for the Tigers. The Nats have picked Calvert (4-2) to try to even the series.

**MSC NETTERS BUSY**  
East Lansing, May 18 (AP)—Matches today, Friday and Saturday will round out a busy week for the Michigan State college tennis team. The Spartan netters meet two Western Conference teams in a row, taking on Purdue at Lafayette today and engaging Ohio State at East Lansing Friday. On Saturday the Spartans meet Western Michigan, also on home courts.

This year's earliest bowl game was played at Hershey, Pa., Oct. 2, between Temple and West Virginia.

**Quebec's Laurentian Mountains Playground**  
QUEBEC, P. Q., (1949)  
Just north of Montreal stretches Quebec's great Laurentian Mountains playground like a great parkland of 70,000 lakes and rushing mountain streams set amongst rolling, rocky hills and green valleys fragrant with pine.

For a hundred miles north of Montreal the highway and railways climb and dip through scenes of matchless beauty. Each year thousands of visitors from the United States find the Laurentians irresistibly attractive, either for a short Sunday drive and dinner from one of Montreal's hotels or for a leisurely stretch of sunny days in the brisk mountain air. There is every type of accommodation from luxury hotels, log lodges and chalets down to French village "pensions" and even a rude cabin in the woods.

Laurentian streams and lakes are famous for trout and bass fishing, and the mountain golf courses try the skill of experts. Riding stables of Laurentian resorts supply hardy mountain horses for the beautiful trail rides away off the beaten track of highways, over green hills and down the leafy paths beside the lakes and rivers. There are tennis courts, too, both grass courts and clay, and archery and sailing and swimming and canoeing. It is a land made for leisure. The woods are deep and cool and in that fresh air fever quickly disappears.

For the adventurous, interesting canoe trips can be arranged either for a day or a week or a month, and there are guides available, with complete camping kits, to take visitors through the mountain wilderness safely along the logging streams and across quiet, lonely lakes with simple portages linking one to another.

The Laurentian resort area is accessible by an overnight trip by train from most eastern U. S. points, and an air service connecting with major lines at Montreal serves the big Laurentian resorts or transports fishing and hunting parties into the hinterland to well-equipped cabins.

## Boudreau Broods; Indians' Pitching Is Way Below Par

By JOE REICHLER

Associated Press Sports Writer

Lou Boudreau is a worried young man today.

The peerless playing pilot of the world champion Cleveland Indians is burdened by a problem emanating from a most unexpected source—the Tribe's vaunted pitching staff.

A month ago if someone had tried to tell Boudreau that his mound staff would give him his biggest headache, Lou would have ordered the guy sent to a psychiatric ward. But listen to Lou now.

"I know we're Lou Boudreau not hitting a Lou Boudreau lick," Boudreau said before last night's 4-3 loss to the New York Yankees. "But that doesn't worry me half as much as my pitching."

## Auto Club Reduces Rates On Insurance

Detroit, (AP)—The Automobile Club of Michigan has announced reductions ranging up to 15 percent in its insurance rates.  
Howard D. Brown, general manager, said they were made possible by "better loss ratios, lower costs of cars, and less severe accidents."  
Insured members of the club will save more than \$1,000,000 a year in the reductions, Brown said.

## Siamese Twin Girls, Joined at the Head, Born in Los Angeles

Los Angeles, Calif., (AP)—Little Siamese twin girls, born Saturday, are given a good chance to live although joined at the head, top-to-top.

The infants were born to Mrs. John B. Jones, 35, a Negro. Only a few similar cases have been reported.

Physicians say the babies are doing well and have a good chance to survive. Dr. Phoebus Beriman, hospital medical director, said a study will be made to determine if it would be possible to separate the twins by surgery.

However, he conceded such an operation would be "risky" because the cranial junction is extensive. However, the fact that one child faces in a slightly different direction from the other, the doctor explained, indicates each infant has a separate brain.

But presumably, he added, there is "some connection" between the two brains. Each child responds individually to stimuli. One will cry while the other sleeps.

A similar case was reported in Indianapolis a year or two ago. The twins there were found to have common brain tissue and died. Another similar case was reported two years ago in Bedford, Ind. Other like cases are recorded in medical history.

According to the Twentieth Century Fund, large corporations usually make profits at a lower rate than small ones but they also lose money at a lower rate.

## Damas Beauvais, 90, Dies At Home Of Son, Funeral In Menasha

Damas Beauvais, 90, a resident of Gladstone and Escanaba for many years, died yesterday at the home of his son, Louis, 331 Eighth street, Menasha, Wis. A heart ailment from which he had been suffering for some time caused his death.

He was born in Canada and settled in Escanaba after coming to this country. He and Mrs. Beauvais were married in Rapid River February 2, 1890, and lived in Escanaba and Gladstone until two years ago when they moved to Menasha to reside with their son. They observed their 59th wedding anniversary this year.

Surviving are his wife, three sons, Louis and Emil of Menasha, and Harvey of Rockford, Ill., and one daughter, Mrs. E. J. Berger of Alpine, Calif. Nieces and nephews included J. C. Valind and Mrs. John Dubord of Escanaba and Napoleon Valind and Mrs. P. L. Burt of Gladstone. Funeral services which Mr. and Mrs. J. C. Valind and Mr. and Mrs. Napoleon Valind will attend will be held Friday in Menasha.

## Union Label Show Of AFL Becomes An Extravaganza

By HAROLD W. WARD  
Cleveland, (AP)—The American Federation of Labor opened a super extravaganza Wednesday to sell the AFL to:

1. The Public.
2. Employers.
3. Its own 8,000,000 members.

The federation has been staging a union label exhibit every year now since the war. It has had amazing growth each year.

I. M. Ornburn, the show's general director, estimated that a half-million persons will visit the vast Cleveland auditorium in the next five days to see the exhibits of 200 industries. The big theme is to improve labor-management relations.

It started out as a kind of county fair to demonstrate the products of union workers. There are more than 500 exhibitors in this year's show.

Ornburn now is thinking of putting the show on the road, instead of limiting it to once a year. He's desiring to get a tent big enough to house it. He says next

year's exhibit will be in Philadelphia and in 1951 it will be in San Francisco. But after that all the big indoor show places will have been exhausted, he thinks.

Part of the reason for the show's popular appeal is the free ticket which everybody gets at the entrance. That entitles the ticket-holder to a chance on a wide variety of home appliances, etc.

Everybody gets a shopping bag, and it will be full of samples before the owner trudges past all the booths and sights.

David Dubinsky's International Ladies Garment Workers is staging a fashion show, with glamorous New York models. The powerful Teamsters' union has the music hall section of the auditorium all to itself for a colossal display and show.

George Harrison's Brotherhood of Railway Clerks has an \$18,000 miniature railroad layout. There's a rail around it to keep the crowds from getting too close. In the exhibit people walk to and from

trains, busses and planes, and fast-stepping porters are lugging their bags.

The Army, Navy, Air Force and Engineers all have big displays of the latest equipment of interest to the average citizen.

Forty apprentice bricklayers will compete during the week for a \$500 prize as the nation's most expert learners at that trade. They'll be judged by the neatness of their work as well as speed. Today's bricklayer has many more detailed technical problems involved in the placing of one brick than the artisan of 40 years ago, says Harry C. Bates, head of the Bricklayers' union. There are narrower walls and more windows, for example.

The Bakery and Confectioners' union turns out a cake every 15 minutes. American and Lorillard Tobacco companies will show how cigarettes are rolled out of their plants. A daily tabloid newspaper will be printed throughout the show.

Two gold-plated bicycles—one for a boy and one for a girl—will be chanced off. They're specially built and are worth about \$1,000, the Metal Polishers' union says.

Everybody gets something free. Cleveland's three major labor writers get in on the show, too. They have to count a batch of nails, tell Mayor Thomas A. Burke how many there are, and then let somebody guess the grand total.

The winner gets a \$1,000 cash prize. The reporters get their names in the paper.

## Polio Cases Take Jump in Michigan

Lansing, (AP)—Michigan has reported more than twice as many cases of polio so far this year than in the same period last year, according to Donald W. Barton, state representative of the National Foundation for Infantile Paralysis.

Barton said that in the first four months of the year 33 cases of infantile paralysis have been reported, compared with 13 in the same period a year ago.

The uptrend appears to be National in scope, Barton said.

## PIN-WORMS CAN STRIKE YOU!

Don't make the mistake of believing that your family is safe from Pin-Worms—that these nasty pests strike only "careless" homes.

Medical experts report that one out of every three persons examined—adults and children alike—was a victim of these ugly creatures that live and grow inside the human body. And this common condition spreads rapidly... often through entire families.

Watch for the warning signs of Pin-Worms in your family—especially the maddening rectal itch. Then get **JOYNE'S P.W. Vermifuge**. P.W. contains a special, medically-approved ingredient that attacks Pin-Worms in the intestines and removes them from the body.

Don't take chances. At the first sign of Pin-Worms, ask your druggist for **P.W.**, the small, easy-to-take tablets perfected by the famous **JOYNE CO.**, specialists in worm remedies for over 100 years.

Get real relief: P.W. for Pin Worms!
